High School: _____ **Carl Perkins** **Date:** _____

Budget 2009-10

Name	# Sections
Total Sections	0

Note: In the grey area above, enter teachers' names and number of CTE sections for each teacher. The Total Sections will be automatically calculated. The CTE department of your school will be allocated $2,000 per section which has more than 17 students in the class. If a teacher has fewer than 18 students in a section, count that as .5 sections. Thus, a teacher could have 3.5 sections for budget purposes.

The entire Balance column to the right will be automatically calculated based upon the number of sections of CTE courses and the order amounts

Date	Teacher	Order Amount	Balance
