

## File Folder Flaps

Have each student make a manila file folder with flaps to be used as a study frame for learning spelling words. Students place a piece of notebook paper under the flaps to write on or use a graphic organizer (see attachment).

In the first column, students write the spelling word and then study it using the 4-step process as shown in the diagram below. In the second column, students write the word and self-check. In the third column, students rewrite the word for additional practice.

<b>Look</b>	<b>Write</b>	<b>Rewrite</b>
<b>Say</b>	<b>Check</b>	
<b>Cover</b>		
<b>See</b>
