

Name_____

Science Script for Parent Conferences

- ❖ Show/explain to your parents...
 1. The weekly agenda
 2. How/where you get the information that you write in your planner
 3. How you would get work upon return from an absence
 4. Where you turn papers in

- ❖ Show your parents your Portfolio (the one with the yellow cover) from the first unit. Be sure to show and explain each paper that you chose to include. Be sure to explain that this will be part of a whole year Science portfolio that you will receive in June. Please leave this Portfolio in your folder.

- ❖ Show your parents your Notebook (the one with the blue cover) and explain the log sheet on the front and how we hand back papers and log the scores in during class. You may take the Notebook papers home with you.

- ❖ Go back to the main agenda now, and talk about your Science goal. Ask your parents to write a comment or two about your goal and/or your conference.
