

ANCHORAGE SCHOOL DISTRICT
ANCHORAGE, ALASKA

ASD MEMORANDUM #70 (98-99)

September 28, 1998

TO: SCHOOL BOARD
FROM: OFFICE OF THE SUPERINTENDENT
SUBJECT: BP EQUIPMENT DONATION

PERTINENT FACTS:

In June of this year, BP Exploration assistant director Tom Gallagher and department head Keith Dunn organized a donation of surplus audio-video equipment to the Anchorage School District. The BP donation included studio cameras, monitors and control room equipment that allowed the District to improve its audio-video production capability. Two of the cameras have been installed in the School Board Room for use during televised meetings.

This recent donation is just one part of BP Exploration's support of Anchorage public schools. In addition to their partnership with Rogers Park and Gladys Wood elementary schools, BP sponsors the high school Teacher Exploration Center technology labs, the Teacher of Excellence recognition program, the Science Olympics, and other activities Districtwide.

It is requested that the School Board recognize BP Exploration for their generous donation of audio-video equipment to the Anchorage School District, and for their continued support of Anchorage students.
