

ANCHORAGE SCHOOL DISTRICT

ANCHORAGE, ALASKA

ASD MEMORANDUM #196 (98-99) February 8, 1999

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

SUBJECT: INCREASE SCOPE OF PROJECT: SECONDARY AND
ELEMENTARY PLANNING AND PRELIMINARY DESIGN, 1997
GO BOND

RECOMMENDATION:

It is the Administration's recommendation that the School Board approve and authorize the Superintendent to increase the scope of the Secondary and Elementary Planning and Preliminary Design Project, funded by the 1997 GO Bond, to include the following schools: Bartlett High Renovation, East High Renovation and New South Anchorage High School, New Eagle River Secondary School and New Muldoon Middle School.

PERTINENT FACTS:

On April 15, 1997 the voters approved Bond Proposition Number 7 that included funding for Secondary and Elementary Planning and Preliminary Design, in the amount of \$2,250,000. The scope presented in this bond issue included planning or design of nine separate school projects. These projects have been substantially completed, and there is a projected balance of approximately \$700,000.

Construction funding for the five schools listed above is incorporated in the 1999 bond proposal. By beginning immediately with the preliminary planning and conceptual designs of these projects, the District can shorten the time frame for initiation of the construction phase of these projects.
