

ANCHORAGE SCHOOL DISTRICT

ANCHORAGE, ALASKA

ASD MEMORANDUM #251 (98-99) April 21, 1999

TO: SCHOOL BOARD  
FROM: OFFICE OF THE SUPERINTENDENT  
SUBJECT: CREATE A COMMUNITY CONTEST WINNERS

PERTINENT FACTS:

The Anchorage Home Builders Association "Create a Community Contest" was devised 13 years ago by area builders as a way to get students interested in the different elements involved in developing a community. In the contest, participants are challenged to design a "dream" community in which they would want to live, work and play.

Eighty-eight students entered this year's contest by designing two-or three-dimensional community models accompanied by essays detailing the important qualities which characterize their ideal communities.

Contest developers hope this competition will encourage students to pursue careers in community planning, architecture or construction. Perhaps these amateur designers will one day turn their dream communities into reality.

Congratulations to these winning designers!

Fifth-grade winners in the two-dimensional category include:

**First place:** Saeless Smith of Northern Lights ABC

**Second place:** Derek Tennant of Spring Hill Elementary

**Third place:** Alex Bonnecaze of Spring Hill Elementary

Sixth-grade winners in the two-dimensional category include:

**First place:** Jeremy Ottum of Inlet View Elementary

**Second place:** Chase Hawley of Gladys Wood Elementary

**Third place:** Cory Knowles of Gladys Wood Elementary

All the fifth and sixth grade winners in the three-dimensional category attend Inlet View Elementary. They include:

**First place:** Courtney Prokosch, whose entry was also awarded "Best of Show"

**Second place:** Paul Campbell

**Third place:** Daichi Ito
