

ANCHORAGE SCHOOL DISTRICT
ANCHORAGE, ALASKA

ASD MEMORANDUM #36 (2000-2001)

August 28, 2000

TO: SCHOOL BOARD
FROM: OFFICE OF THE SUPERINTENDENT
SUBJECT: APPROVAL OF SCHEMATIC DESIGN FOR EAST HIGH
SCHOOL RENEWAL

RECOMMENDATION:

It is the Administration's recommendation that the School Board approve the schematic design for the East High School Renewal and authorize the Superintendent to proceed with the Design Development and Construction Documents for the East High School Renewal project.

PERTINENT FACTS:

In 1997, the voters approved funding for planning and preliminary design for the East High School Renewal Project.

On June 8, 1998, the School Board approved the Districtwide High School Education Specifications, ASD Memorandum #299 ('98-'99).

On June 14, 1999, the School Board approved the selection of Winchester Alaska, Inc. as the Architect of Record, ASD Memorandum #336 ('98-'99). Winchester Alaska, Inc. has been assisted by the nationally known school planners, KKE Architects, Inc. from Minneapolis.

On April 4, 2000, the voters approved \$10,140,062 to fund Phase 1 of the East High School Renewal Project.

On May 8, 2000, the School Board approved the Supplemental Educational Specifications as well as the Conceptual Master Plan (Preliminary Design) as developed by Winchester Alaska, Inc., ASD Memorandum #274 (1999-2000) Revised.

Over the summer, since the approval of the Conceptual Master Plan, the design team has held a number of meetings with the Design Advisory Committee and building staff to develop this schematic design.

The Building Design Committee consists of ASD Facility representatives, East High School staff, administration, teachers, students, and parents.

Winchester Alaska, Inc. delivered the Schematic Design submittal package to the School District on August 9, 2000. One complete set is available in the School Board Office. The attachment to this memorandum consists of a set of reduced architectural drawings.

Construction for Phase 1 is anticipated to begin in June 2001. Completion of the sitework, IMC temporary relocation, new commons area/cafeteria, and new west entrance will be completed in time for the opening of school in August 2001. The construction of the Academic Area V, fully isolated from the school population, will continue to the end of 2001. It is anticipated that this academic area will be ready for use for the second semester, 2002.
