

ANCHORAGE SCHOOL DISTRICT
ANCHORAGE, ALASKA

ASD MEMORANDUM #82 (2000-2001)

October 9, 2000

TO: SCHOOL BOARD
FROM: OFFICE OF THE SUPERINTENDENT
SUBJECT: CERTIFICATES OF EXCELLENCE IN FINANCIAL REPORTING

PERTINENT FACTS:

Students aren't the only ones who need to be good at writing reports. School district employees have to write clear and accurate financial reports in order to show the effective use of district resources and to offer public accountability of school business management practices.

Recently the district's financial reports were put to the test, and judging by the results, they passed with flying colors.

Chief Financial Officer Janet Stokesbary and the business management office staff have been recognized by two national organizations for their work on the 1999 comprehensive annual financial report. The department received awards from the Government Finance Officers' Association and the Association of School Business Officials' International. These organizations hold the highest standards of excellence, honoring financial reports that are thorough, accurate, and clearly communicate the district's financial story.

It is requested the School Board recognize Janet Stokesbary and her staff for achieving these honors.
