

ANCHORAGE SCHOOL DISTRICT  
ANCHORAGE, ALASKA

ASD MEMORANDUM #211 (2001-2002)

March 11, 2002

TO: SCHOOL BOARD  
FROM: OFFICE OF THE SUPERINTENDENT  
SUBJECT: ASD LIFESAVER: ANGIE GEORGE

PERTINENT FACTS:

In September of this school year, Williwaw Elementary School, Second Grade Teacher Angie George observed a student choking in the lunchroom and grasping the throat giving the universal sign for choking. The student was unable to breath and was turning blue. Ms. George saw the student choking and, using first-aid skills she learned during a recent Red Cross Course, performed the Heimlich Maneuver. Ms. George's quick action and life saving expertise, dislodged the obstruction in the student's airway and restored normal breathing. Her response to this situation and ability in performing the Heimlich maneuver may have saved the student's life.

A potential tragedy was averted by the quick and appropriate response of an Anchorage School District employee. Ms. George sets an example for students and employees alike and we are proud to have teachers like Angie George in our District.

It is requested that the School Board recognize Ms. Angie George for her quick response to this emergency situation.
