

ANCHORAGE SCHOOL DISTRICT
ANCHORAGE, ALASKA

ASD MEMORANDUM #123 (2002-2003)

November 25, 2002

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

SUBJECT: SCHOOL DESIGNATOR COMMITTEE RECOGNITION

PERTINENT FACTS:

Willow Crest principal Teri Regan recently received a special service recognition award at the principals conference held in Anchorage, for her hard work and dedication to the Alaska Department of Education and Early Development's School Designator System Committee.

Ms. Regan has served as one of several elementary school principals on the School Designator Committee since it was created three years ago. Overall, the committee consists of more than two dozen people, including school principals, teachers, superintendents, school board members, parents and business professionals who represent much of the diversity of Alaska. The committee, whose purpose is to provide input to the state on how to effectively and fairly communicate school quality and performance to the public, meets several times throughout the year.

Ms. Regan has worked hard the past several years while serving on the committee and says that the committee is working hard to develop a system that will recognize good performance while helping lower-performing schools improve through increased attention and targeted assistance.

It is requested the School Board recognize Teri Regan for her commitment and dedication to all of Alaska's schools.
