Teacher need to backup their data

July 31, 2008 Student data will be deleted.

Summer Accounts

Foundational Beliefs

Small Group work

- School should be engaging, challenging and relevant for all students
- Students need to have global access to information and materials
- Learning is a collaborative process that involves the community
- Educational opportunities are not confined by the school calendar
- Access to technology must be equitable for all students
- Teacher should model the meaningful use of technology
