

# Mac OS X version 10.5

## Adding Printers by IP

This tutorial describes using the Printer List Helper to add a printer by using IP in Mac OS X version 10.5.

### Adding Printers to the Printer List

Navigate to your **Applications** folder. Clicking the **Applications** icon on the sidebar is a quick way to get there. Open the **Utilities** folder. Double-click the **Printer List Helper** icon to launch it.

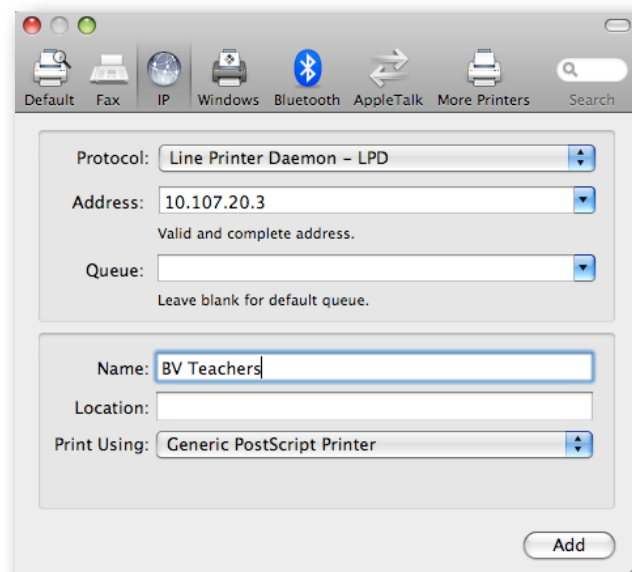

### Adding a Printer Via IP

Click on the icon named **IP**. Under the **Protocol** pull-down menu, select "Line Printer Daemon". Enter the printer's IP address in the **Address** field, leaving the **Queue** field blank.

A descriptive, user-friendly name can be entered in the **Name** field. Finally, click the **Add** button to add the printer to the printer list.

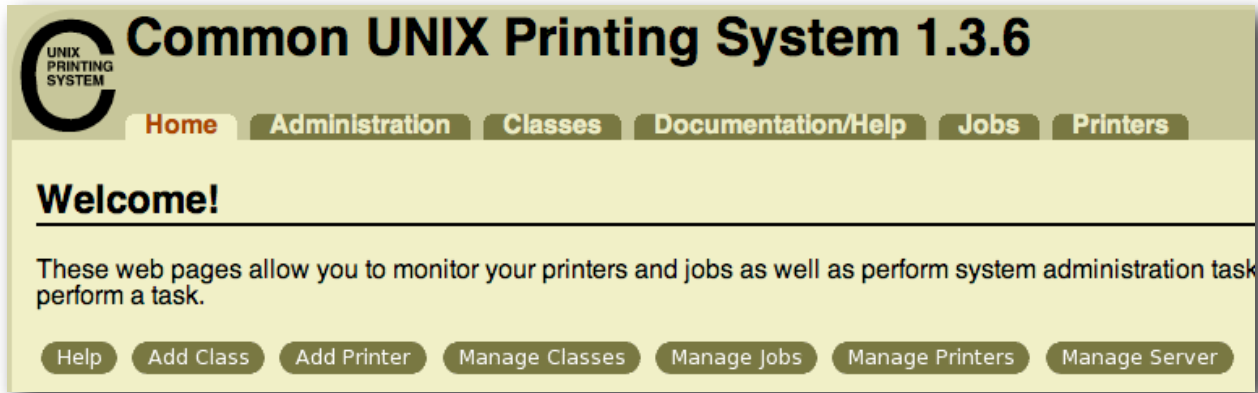

**Note:** If you are unsure of the IP address of the printer you wish to add, ask your building tech contact/coordinator.

## Deleting Printers from the Printer List

Open a web browser and go to the address: <http://localhost:631>

From the “**Home**” tab, click the “**Manage Printers**” button.

**Common UNIX Printing System 1.3.6**

Home Administration Classes Documentation/Help Jobs Printers

### Welcome!

These web pages allow you to monitor your printers and jobs as well as perform system administration tasks.

Help Add Class Add Printer Manage Classes Manage Jobs Manage Printers Manage Server

You’ll then see a row of information and management options for each printer in the printer list. In the section for the printer to be deleted, click the “**Delete Printer**” button.

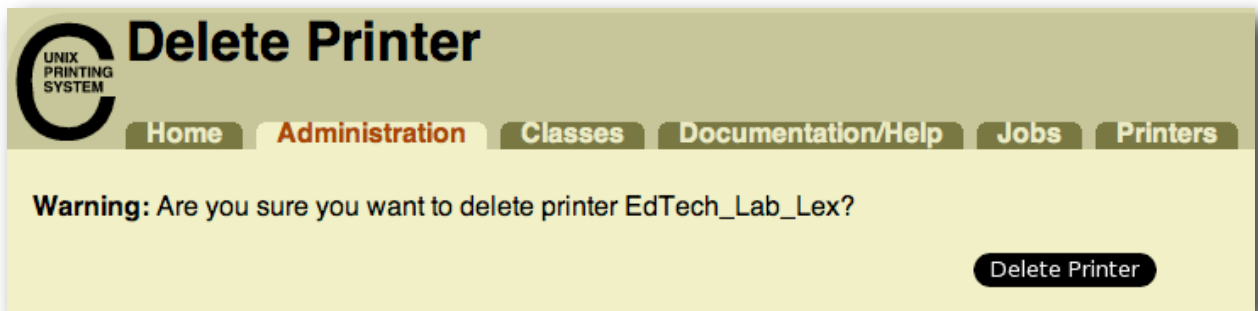

**EdTech\_Lab\_Lex**

**Description:** EdTech Lab Lex  
**Location:**  
**Printer Driver:** Lexmark T620  
**Printer State:** idle, accepting jobs, not published.  
**Device URI:** lpd://10.31.20.11/

Print Test Page Stop Printer Reject Jobs Move All Jobs Publish Printer Modify Printer Set Printer Options Delete Printer  
Cancel All Jobs Set As Default Set Allowed Users

Confirm the printer deletion and the following page. The printer is then deleted from the printer list.
