**What methods did you use to report the results of your grant to interested members of the public? Some examples would be your school newsletter, parents' meeting, or your school web site.**

We used out parent newsletter, class newsletters, website as well as flyers and posters.

**Major Accomplishment**

Our group was able to donate time, money donations and had made items to ADA, AHA and our community outreach services. I believe through the carrot of movement along with charitable giving the combination is a hit!

3B. Students demonstrate consideration for others and a desire to positively contribute to their community.

**Other Comments**

This is empowering to see the amount of kids who sign up and not want to contribute, yet at the end they have overcome whatever fear it was they may have had about charitable giving. Charitable giving has many different forms and they see that through the jobs we create for our projects. They have to work with other students from all grades and all abilities. They see the team effort to a community level.
