

### Rilke Schule Charter School Overview

#### Statement of Program

Rilke Schule German School of Arts and Sciences Charter School was established in 2007. Our school engages students in grades K-8 through an enriched language curriculum taught primarily in German. Our teaching focus is on language, arts and sciences, fostering creative expression through drama, arts, music and sports. With the support of parents and the extended family, our school creates a community, which is immersed in the German culture and promotes international awareness. Our school nurtures a child's natural curiosity and cultivates lifelong learning.

N/A is used to indicate:

- (1) Subgroups with 20 or fewer students enrolled on the first day of testing shall not be included in participation rate calculation.
- (2) Subgroups with 25 or fewer students enrolled for the "full academic year" shall not have the performance score computed.

\* For the groups where the number enrolled is less than or equal to 40, participation is met when no more than two miss the test. Groups can also meet this target using the average of the past two or three years.

\*\* When a group achieves a "Yes" without meeting the listed target, it has done so using either the 99% confidence interval or Safe Harbor.

\*\*\* The results cannot be published without releasing personally identifiable information based upon the EED reporting protocol.

### Climate Survey Results for Rilke Schule Charter School

The Anchorage School District administered the School Climate and Connectedness Surveys in spring 2008 to students in grades 5-12, all school staff and parents/guardians of students in grades K-12. The surveys were done to provide schools with information about perceptions and experiences related to school climate for use in setting school goals and redirecting resources. In the spring of 2008 grades 3 and 4 students were involved in a pilot survey for measuring school climate and connectedness. The results are currently under review by the American Institutes for Research.

Respondents were asked to answer a series of questions that were related to a certain concept. For each item, there were five options from which to choose a response. The answer options ranged from strongly disagree (1) to strongly agree (5).
