

ANCHORAGE SCHOOL DISTRICT
ANCHORAGE, ALASKA

ASD MEMORANDUM #104 (2011-2012)

December 12, 2011

TO: SCHOOL BOARD
FROM: OFFICE OF THE SUPERINTENDENT
SUBJECT: 2011-2012 RACE AND ETHNICITY REPORT

ASD Goal: *The district will be open, transparent and accountable to the public.*

PERTINENT FACTS:

The language in this report has been updated to better match US Department of Education language in order to make a clear distinction between race and ethnicity. In previous reports students of two or more races were termed “multi-ethnic.” Today, they are simply in the group “two or more races.” The “Hispanic” ethnic group is now called “Hispanic or Latino (of any race).” Lastly, “ethnically diverse,” which described nonwhite membership, is now phrased as “nonwhite.”

Today 54% of the students in the Anchorage School District identified with one or more nonwhite groups, compared to 13% in 1976. Of today’s nonwhite student membership, the Asian/Pacific Islander category (15%) is the largest, followed by the Two or More Races (13%), Hispanic (11%), Alaska Native/American Indian (9%), and African American/Black (6%) groups – see Chart 1 in the attached Race and Ethnicity Report. The following table compares race and ethnicity percentages for 2010-11 and 2011-12:

Percent Race/Ethnicity Comparison: 2010-11 and 2011-12

Race/Ethnicity	2010-11	2011-12
White	47%	46%
African American or Black	6%	6%
Alaska Native or American Indian	9%	9%
Asian or Pacific Islander	15%	15%
Two or more races	13%	13%
Hispanic or Latino (of any race)	10%	11%
Total Nonwhite	53%	54%

Comparing 2010 and 2011, the overall nonwhite student population has increased by 1% and the white student population has decreased by 1%. These changes are shown in the Historical Student Membership Composition graph (Chart 2). Looking at student numbers, the white student group decreased by 664 students this year when compared to last year, while nonwhite groups increased by 472 students. The largest numerical gain over last year, was in the two or more races category, which increased by 252 students.

Students were asked to identify themselves with two responses: 1) identify whether or not they were of Hispanic or Latino ethnicity, and 2) to select the categories which described their race (more than one could be selected).

Guidance from the Alaska Department of Education and Early Development was used to interpret responses to the two questions. Students who indicated they were Hispanic or Latino were assigned to that ethnic group, regardless of race. Students who identified with one race category were placed in that particular race category. Students who made more than one selection for race were placed in the two or more races category.

Chart 3 shows student race and ethnicity by program type. At 59%, Special Services has the largest population of nonwhite students, followed by Middle School students at 58%, 56% of Elementary School, 51% of High School, 47% of Alternative school, and 35% of Charter school programs.

The diversity at the secondary levels continues to increase as the more diverse elementary student population ages into these levels. Elementary schools had the highest proportion of nonwhite students of any regular program schools in 2009. Today, Middle schools have the highest proportion of nonwhite students of any regular program schools. Chart 4 shows the trend of nonwhite membership by program type.

The attached Race and Ethnicity Report lists student information in summary, by region, by program type, and by school. The series of tables and graphs represent membership numbers as of October 31, 2011.
