Bedbug Inspection Report

Dear Parent,

Today, a bedbug was found on your child or in your child's belongings. While this does not necessarily mean that the bedbug was brought to school by your child, it is important to your child and to the school community that you inspect your home for signs of bedbugs.

Enclosed you will find information about bedbugs and an identification guide to help you with your inspection. Once you have inspected your home, please fill out the form below and return to the school office by _____.

Sincerely,
School Nurse

I have been informed that a bedbug was found on my child school. I have read and understood the educational materials provided to me regarding bedbugs, and have:

- carefully checked my family and home for signs of bedbug infestation myself
- hired a pest management professional to check my family and home for signs of bedbug infestation. Name of pest control company: _____

After completing a careful inspection, I certify that to the best of my knowledge:

- I or a pest management professional found signs of bedbugs in my home, and I will take the following actions to eliminate this infestation:

- I or a pest management professional did not find signs of bedbugs in my home at this time. If I find evidence of bedbugs in the future, I will notify the school immediately and take action to address the infestation.

I understand that bedbugs can be spread to other homes if they are brought to school in backpacks, clothing, and other belongings. I understand that if bedbugs are repeatedly found on my child, that the school may take additional actions to keep bedbugs out of the school community.
