

AK + ASD Reading Performance Standards (Grade Level Expectations) For Grades 1

The first row of each table includes a heading that summarizes the performance standards, and the second row includes the complete performance standards. (Note that the header on each page lists the grades that are covered by each set of performance standards.)

The numbering indicates the performance standard and the Grade Level Expectation number, so GLE [5] 2.4.1 is Performance Standard 2.4, and the first GLE for that performance standard for grade 5.

The student uses strategies to decode or comprehend meaning of words in text.

R1.1 a. Distinguish, reproduce, and manipulate the sounds in words;
 b. Use a combination of the following to read and comprehend text: **knowledge of phonics**, alphabet, and alphabetic principle, e.g., recognition of letter shapes, letter names, letter/sound relationships, initial/final consonants, vowels, letter patterns; **pictures and visual cues**; **sight recognition** of high frequency vocabulary words; **word structure**, e.g., root words, prefixes, suffixes, rhyming words; **language structure**, e.g., word order, grammar; **meaning structure**, e.g., prior knowledge and context; **text structure**, e.g., read left to right. (AK): GLEs identified by the State of Alaska

(ASD): GLEs identified by the Anchorage School District

Some GLEs have been identified as Local. They are for local assessment and will not be on a state assessment.

The number in brackets indicates the grade level.

Differences between grade levels are underlined.

GLEs repeated with no changes across grade levels are marked with asterisks to indicate that the GLEs assumes an increasing level of reading skill applications to indicate the growth in the GLE, but all GLEs assume an increasing level of reading skill applications.

Grade Level Expectations are written for assessment purposes. The GLEs should be written in a way so that it is clear what is expected of classroom instruction and/or state assessment.

Criteria for GLEs

1. The set of GLEs for each grade level should be reasonable to learn within a school year and still allow for learning additional state and local expectations.
2. GLEs should promote coherent, focused, developmentally appropriate instructions, as opposed to isolated instruction just on topics, facts, or individual skills.
3. Concepts, skills, and knowledge should be differentiated between adjacent grade levels.
4. GLEs should be of similar levels of specificity.
5. GLEs should show a continuum of learning. Success in one grade should be a good predictor of success the next year.

Glossary

Alliteration: Repetition of the initial consonant sound of close or adjoining words.

Conventions of Print—Punctuation or other devices (e.g., using all caps, bold, or italics to indicate that certain words should be emphasized) to indicate how text should be read (a pause at a comma, a longer pause for ellipsis).

Dialogue: conversation between two or more persons or between a person and something else, such as a computer

Dialogue journal: written conversations in which students exchange ideas, including response to literary works, with peers and teachers.

Inference—The act of making logical conclusions based on evidence or known facts

Informational/Nonfiction—These texts include primary sources, personal narratives and autobiographies, schedules and manuals, as well as synthesized information found in textbooks. Informational texts use format, illustrations, and graphics to support understanding of meaning.

Literary devices: Techniques used by a writer to convey or enhance the story (e.g. dialogue, rhyme, simile, alliteration)
Reference to Text – Mentioning or alluding to something in the text without directly quoting the text (For example: Romeo’s impulsiveness caused him to be banished.)
