

5th ESTIMATION & COMPUTATION

E&C-1

Round 45,298.9
to the nearest
tens place.

E&C-1

add, subtract, multiply or divide
Use front end estimation to
set up this number
sentence 627 x 772 =

You do not have to solve the
number sentence.

Round up this amount
of money because you
want to be sure you have
enough.

E&C-1

I will give you 3 seconds
for each fact.

E&C-2

$$\underline{\$7.95} + \underline{\$4.15} .$$

$$\underline{7} \times \underline{8} \quad \underline{6} \times \underline{7}$$

$$\underline{56} \div \underline{7} \quad \underline{27} \div \underline{9}$$

Add these two 4 digit
numbers.

E&C-3

Subtract these two 4 digit

E&C-3

$$\underline{4,798} + \underline{5,245} .$$

numbers 7,003 - 4,632

Add these two amounts
of money.

E&C-3

Subtract these two
amounts of money.

E&C-3

$$\underline{\$48.86} + \underline{\$27.97} .$$

$$\underline{\$50.00} - \underline{\$32.79} .$$

Add these two common
fractions.

E&C-3

Subtract these two
common fractions.

E&C-3

$$\frac{5}{8} + \frac{2}{8} .$$

$$\frac{8}{12} - \frac{3}{12} .$$

Multiply these
two double-digit numbers.

E&C-4

Divide this triple-digit
number
by this single-digit
number.

E&C-4

$$\underline{23} * \underline{45} =$$

$$745 \div 5 =$$
