

**Anchorage School District  
Anchorage, Alaska  
Notice Regarding Cancellation of  
International Travel**

Dear Parent and Student:

All students groups with planned international travel have been previously advised that the Anchorage School District has cancelled district or school-sponsored international travel for reasons of safety. This notice is provided to answer parent questions concerning continuation of a planned trip despite the District's cancellation of sponsored international travel.

District/school participation in international events and competitions will not be recognized. The District, or your trip or program sponsor, has notified all competition and event organizers that the district/school will not be participating due to the District's cancellation of international travel.

Should parents and students make a decision to travel, the District is in no way responsible or subject to any liability, for personal travel plans, of a student and his or her family. These travel plans are not District-sponsored and are not otherwise authorized or approved in any way by the Anchorage School District.

Should an Anchorage School District employee travel with a student or group of students on private/parentally sponsored international travel, that individual is not acting in his or her capacity as a District employee. Any parent/student traveling with a person employed by the Anchorage School District acknowledges that the individual is traveling in his or her personal capacity and that such travel has not been approved or sponsored in any way by the District. No staff member of the District who participates in travel should represent that he or she is traveling as an official representative of the Anchorage School District.

I have read and understand the trip cancellation policy described above.
