couches instead of chairs – private lockers – touch computers – more safe – elevator! – game room – make school feel more like home – more windows! – retro –

## Student Ideas

I like the birds in the science hallway – Romig should have its own library – a good food court – music – wrestling room – track – ballet room – pool – murals in hallways about alaska wildlife – we should have more colors like red, blue and green – deli – matching lockers – healthier lunch – more inviting colors – floors retiled – stuffed statues – a statue of alaska showing big events of the past – rock wall and racquetball – shooting range – winter inspired theme – new logo – more bleachers – the bathroom stalls are too small – new lockers – the color purple – better stairs – I think we should incorporate alaska into our schools by having animal footprints on the walls – more modern Trojan symbol – emphasize the school colors more – I think the inside of the lockers should be dry erase boards so you can write yourself messages – snowflake shaped rugs – waterfall – better entrance – student lounge – football field – bigger basketball court – soda machines – bigger hallways – add a lion to the Trojan statue on the front of the building – a Trojan warrior head in the gym – vending machines
