

Begich Middle School Bus and Walking routes

On February 15, 2007, the Hazardous Bus Transportation Committee (HTC) met and determined the walking area and transportation zone for students who will attend the Begich Middle School. The HTC recommended that school bus service be provided for students south of Northern Lights, north of DeBarr, and east of Muldoon. The area east of Muldoon between 16th and 20th will be reviewed again after construction of Creekside Center Drive is complete and a traffic light is installed at Creekside/16th and Muldoon.

Students who live south of DeBarr, west of Muldoon, north of Northern Lights and east of the western boundary of the attendance area will walk to Begich Middle School. The Municipal Traffic Department will be developing walking route maps this summer.

Designated bus stops and the timetable for transporting students to and from school will be published in the local newspaper and available at school during registration prior to school opening in August, 2007.
