

WIN AN IPOD Shuffle.

How can we do things better, faster, and cheaper in the Anchorage School District? How do we save money, without actually spending money? Should we turn off lights/computers when not in use? What do your parents think? Share your ideas!

The Entrepreneurs and Mentors Network is asking 7th & 8th grade students at Goldenvue Middle School how you think the Anchorage School District can save money without spending any!

A paragraph and photo/drawing about your idea is due by Friday December 4th to your science teacher. A panel of judges will then pick a first, second, and third place winner. The first place winner will receive an iPod Shuffle! Second and third place will receive an honorary mention. Winners will be announced Thursday, December 17th.

Your idea can be as creative as you choose! TWO shuffles will be awarded to TWO Goldenvue students.

Siemens Building Technologies has provided a second Shuffle for 7th grade to be included.
