

Please review the Top TEN List of Safety Focuses you should consider when dropping off your child.

1. There will be a line, you must wait to drop off and pick up your child. Plan your arrival and departure time accordingly.
2. Stay within the posted speed limit. 5 MPH on school property when students are present, 25 MPH in a school zone
3. Drop off and pick up a lane on the right side as you enter our parking lot.
4. Thru traffic line is on the left, and you can park or keep moving safely and watch the crossing guard.
5. While in the drop-off/pick-up lane or drive-thru lane, CARS MUST BE ATTENDED, DO NOT LEAVE YOUR VEHICLE.
6. Never leave children unattended in your vehicle for any reason.
7. All pedestrians must cross with the crossing guards between the orange cones. We count on all adults to be good role models. Crossing in the middle of the parking lot creates undue risk for everyone.
8. We need your full concentration as you drive on school property. If your vehicle is in motion, do not use any hand-held devices.
9. Refrain from blocking bus arrivals when entering and waiting on Chinook. The large buses cannot make the turn if you are parking on Chinook Dr. at the entrance. The cones on Chinook Dr. are there to prevent parking near the crosswalk.
10. Do not use the staff parking lot on the west end for drop-off/pick-up. This lot is for disabled drivers, preschool drop-off and pick-up, staff, and ASD vehicles.
