The Anchorage School District allows a waiver for a child in transition, regardless of immunization status, to immediately enroll in a public school program for a period of 30 days (4 AAC 06.055). During that period, with the assistance of the Anchorage School District CIT liaison, an immunization record must be located for this child. If no record is produced during the 30-day period or the records indicate that the child has not received the required immunizations, the child must be immunized per State of Alaska requirements in order to continue enrollment and attendance at the public school.

**For more information or assistance please contact the
 Child in Transition department at (907) 742-3833.**
