The Anchorage School District allows for homeless students, regardless of immunization status, to immediately enroll in a public-school program for a period of 30 days (4 AAC 06.055). During that period of time, with the assistance of the Anchorage School District homeless liaison, immunization record must be located for this student. If no record is produced during the 30-day period or the records indicate that the student has not received the required immunizations, the student must be immunized per State of Alaska requirements in order to continue enrollment and attendance at the public school. The Division of Public Health, with the assistance of the district’s homeless liaison, will be responsible for ensuring that the child receives the required immunizations.

For more information or assistance please contact the Child in Transition department at (907) 742-3833.

This form must be returned to the school nurse in order for the student to attend school.
