

Muldoon Elementary School's updated secure vestibule.

Secure School Entrances

Years ago, school entrances were designed for convenience, allowing large numbers of people to enter and exit quickly. However, rising security concerns over the past few decades have led ASD to redesign building entryways for safety.

While school doors remain open at the start and end of the school day with staff present, access is restricted once classes begin. Visitors must first be identified through a camera and voice intercom system before being allowed into the vestibule—an enclosed entryway past the first set of doors. From there, they are directed through the office rather than having direct access to the main school hallway. Rapid building evacuations are still supported.

Cost to Taxpayers

\$12.90 per \$100,000
of assessed property valuation

Paying Off Debt

More than
\$377 million
Bond debt paid off since 2010

More than
\$100 million
Bond debt paid off
in the last 2 fiscal years

More than
\$162 million
Bond debt to be paid
over the next 5 fiscal years

SCHOOL BOND

ANCHORAGE SCHOOL DISTRICT

PROPOSITION 1

Security and Safety Upgrades

Proposition 1 will fund ASD security and safety upgrades at 40 schools and two support buildings across Anchorage. It will also support infrastructure improvements to keep schools running efficiently and well-maintained for the community.

Security and safety projects on proposition 1 include:

- School security system and building entry improvements
- Major infrastructure renovations and replacement
- Snow removal equipment upgrades

2025 School Bond – \$63,822,000

asdk12.org/bond

Project Highlights

Secure School Entrances

- Secure Entry Vestibule\$6,693,000
- Intrusion System Replacements \$4,100,000
- Access Control Systems..... \$1,000,000

Major Infrastructure Replacement and Upgrades

- Bartlett High School Infrastructure Improvements and Design\$9,366,000
- Spring Hill Elementary Renovation \$14,005,000
- Campbell STEM Elementary Renovation\$11,483,000
- West High School Utilidor, phase 3 of 3. \$9,510,000

Planning and Design for 2026-28 projects \$3,865,000

Snow Removal Upgrades..... \$3,800,000

- New tractors
 - New loaders
 - New graders
 - New sanders
- Plow snow
 - Haul snow
 - Sand parking lots and sidewalks
 - Sweep parking lots and sidewalks

Equipment breakdowns are frequent, repairs take longer due to obsolete equipment and work stoppages are now common.
