School ReOpeninG SLC & K-2

ReOpening SLC & K-2

Klatt is thrilled to welcome back the SLC program and our Kindergarten through second-grade students. We also hope that as we establish safe routines and protocols that our third through sixth graders will be joining us shortly after.

If your family is hesitant and unsure about returning to face-to-face learning there are two options available for families. First, returning to the building for face-to-face with their Klatt teacher of transferring to ASD Virtual program, please reach out to our front office staff for any questions. Also, feel free to contact me to discuss these options.

As we welcome students back to school, student and staff health and safety is our top priority. Families, please assist us with this process by providing students with extra masks, a water bottle, checking temperature before school, and making sure if students are sick or show any Covid related symptoms we keep our child home. If students arrive at school with any related Covid symptom, it is our protocol to isolate the child and send them home. If your child has a chronic symptom that associate with Covid, please provide the school with a doctor's note from your child's pediatrician.

The school day is from 9:30-3:00. Students can arrive to the school no earlier than 9:15 and doors will open at 9:20. Students will need to line up in their designated teacher line. Please review the Re_entry slides below for complete details.

Car Drop-off/Pick Up Loop

Arrival and Dismissal procedures have changed to improve overall safety during these high traffic times. Please understand that as you enter the car pick-up loop, the line will be continuously moving in a single lane along the loading zone. Vehicles will be guided through the loop by staff on duty. Staff will be wearing bright-colored safety vests and will aid in the vehicle movement through the drop-off/pick-up loop. There is no parking permitted within the drop-off/pick-up loop. Vehicles will stop only to actively unload or load students, and then they will proceed through the loop. At the loading zone, students will exit and enter vehicles from the passenger side only. The first row of the parking lot will be closed to access at the entry of the car loop. Those who wish to park may loop around and find a spot in row 2, or enter at the opposite end of row one to park. After passing the loading zone, vehicles will be guided to continue through the loop to the exit. If your child is not present at the loading zone, you will be encouraged to proceed through the loop and re-enter it at the start again, to make a second pass through the loading zone. Please bear with us, as this is a change, but keep in mind that the safety of our students is number one, and following this procedural guidance for arrival and dismissal time helps ensure all Klatt students are safe.
