Good News Frontier Families,

For the first time, teachers and principals from Frontier Charter, Family Partnership Charter, and Paideia Cooperative schools joined together to prepare and coordinate a new learning opportunity for our high school students. The Frontier teachers and I call this the "Frontier eLearning Network." We use the word "Network" to refer to the hours we spend weekly collaborating with the other two schools to make these high school classes possible. Note that Paideia refers to this high school course offering as "Homeschool Online Learning," while Family Partnership, "Ox Academy" ... Each of our 3 ASD programs have always had its character and preferences.

The teachers at all three of our homeschool programs are teaching the classes, including me! Beginning this January 11, I'll offer both semesters 1 and 2 of U.S. History since I'm the history nerd with that university degree. In case you are interested, I'll tell you what the rest of the Frontier gang is going to teach. Behind the scenes, we are having a lot of fun with this:

Ashley Bukowski:	Liberal Arts Math; Financial Literacy
Barbara Brown:	Workplace Readiness; second class TBA
Carrie Christenson:	Criminology; Psychology
Jerry Finkler:	United States History
Elizabeth Hunt:	Veterinary Science; Music Appreciation
Pam Swanberg:	Algebra 1

Just a reminder that Frontier Charter School is very supportive of students taking classes all around the country, such as with: Acellus Academy, Apex Learning, BYU Independent Study, Florida Virtual, Keystone School, North Dakota CDE, Pennsylvania Homeschoolers AP Courses,

to name some popular ones. Even so, by offering our virtual classes, we can provide our families with something many programs cannot, namely, (1) Pay only \$115 per class! Save money; (2) Learn Local with ASD teachers like me! We are very supportive of our students; (3) We've created classes that are NCAA APPROVED! (4) Keep your money local. There's more to like! Please review our site at,

If you are interested in signing up for a class, please do so through your Frontier Advisor.

Yours,
Jerry Finkler
Principal
Frontier Charter School
Direct Line: (907) 742-1182

Our purpose is to benefit students where it matters the most:
To increase opportunities and resources for your student.
Frontier Charter School is focused on the future and frontier
of education, to offer parents new insights, best practices,
and emerging innovations in the world of learning!
