

ART EXPLORATORY

In 7th Grade Art Exploratory class, students learn about the elements of art by exploring the concepts of line, shape, form, texture, value, color, and space.

Students learn about the principles of art by exploring the concepts of unity, variety, harmony, contrast, movement, emphasis, repetition, pattern, and rhythm.

Students explore a variety of art techniques and mediums, such as clay, watercolor, acrylic paint, paper mache, pencil, charcoal, etc.

Students learn about art history, art movements, and the artists relevant to their art projects.

Students are guided to take their knowledge and critical thinking skills to constructively apply them to their artwork.

Students will produce artwork that shows creativity and problem-solving abilities.

The district, state, and national standards are reflected in all lessons and projects.

ART EXPANDED

In 8th Grade Art Expanded class, students learn about the elements of art by exploring the concepts of line, shape, form, texture, value, color, and space.

Students learn about the principles of art by exploring the concepts of unity, variety, harmony, contrast, movement, emphasis, repetition, pattern, and rhythm.

Students take a deeper look into art techniques and mediums. Each project is about gaining confidence and proficiency in a variety of mediums.

Students learn more about art history, art movements, and artists relevant to their art projects.

Students are guided to take their knowledge and critical thinking skills to constructively apply them to their artwork.

Students will produce artwork that shows creativity and problem-solving abilities.

The district, state, and national standards are reflected in all lessons and projects.

*“Every artist was first
an amateur.”
– Ralph Waldo
Emerson*

Hanshew Middle School

*“Creativity takes
courage.”
– Henri Matisse*
