This week for Black History Month we are celebrating inventors! Lonnie Johnson was the engineer that developed this mega water gun in his free time while working at NASA's Jet Propulsion Laboratory. And once the toy, dubbed the Super Soaker, hit shelves in 1990, its popularity skyrocketed. In 2017, Forbes reported that it had earned over \$1 billion in retail sales.

Shirley Jackson was the first African American woman to earn a doctorate at MIT, and is responsible for monumental telecommunications research that led to the invention of products such as the touch-tone phone, portable fax, fiber optic cables, and caller ID. In 2014, President Barack Obama named her the co-chair of the President's Intelligence Advisory.

Every year, in every sport there are people who wait to get a physical on the day the sport starts. Don't be one of the people who miss tryouts or practice because you didn't plan ahead! Schedule with your doctor's office. If you can't get to a doctor's office, the school clinic can help. Use the link in canvas or stop by Room 129 for paperwork. Also take care of online registration at Planeths.com. Clinic staff will be at Bartlett Wednesday.
