Digital Newsletter

The Week of March 23rd

A Word from Mr. Woodward

woodward_chris@asdk12.org

Hello Everyone. I hope this message finds you all safe and sound. All of us here at Mountain View Elementary have been working during this period of school closure to learn how to teach classes through the internet. This is known as e-learning or distance-delivery. It is new territory to most of us, but we are slowly figuring out how to do it. We will be delivering supplemental educational resources online to your students beginning on March 31. For those of you who are lacking internet service or devices to access the internet, the school district does have a plan to assist with this. Families should be contacted in the next two weeks about this. The school district has also posted a variety of resources on their website: asdk12.org. We all really miss our students and are looking forward to seeing them in a virtual classroom next week. This newsletter will be updated weekly, so please check back often. Thank you! --Mr. Woodward

A Word from Nurse Tammi

bailey_tamara@asdk12.org

Hello students and parents! We are missing you as we continue our quarantine adventure!! I know you have heard how important it is to keep washing your hands and I'm sure the students are doing a good job! Drink LOTS of water, NOT SODA, and get some fresh air everyday!! I'm sure you will be getting assignments from teachers soon but also, practice measuring fluids and dry ingredients with measuring spoons and measuring cups. Making brownies or cookies is a good way to practice or put measuring cups in the bathtub for younger kids. Email me because I'm lonely!! "Elbow bump" to all, Tammi

A Word from Counselor Mrs. Tufi-Gho

tufi-gho_laura@asdk12.org

Hi everyone! We miss you and hope you are all doing fine! I hope you guys are getting some daily exercise and that you take care of yourself emotionally and mentally. Take deep breaths, write in your journal, draw pictures, play games, and do fun activities with your families. I'm working on a website that families can turn to for ideas and activities on staying positive, mindful of yourself and others, calm and hopeful during a stressful time. It will be available Monday morning. In the meantime you can go to asdk12.org for ideas and remember to practice social distancing and to wash your hands. If you want to get a hold of me, please email me. And remember that this difficult time will end one day and we will get through it together! All the best, Mrs. Gho

Hello Friends! As a teacher and parent, I know how difficult this time is for you and your family. It is my sincere desire to assist the learning process as we work through the ever changing national, state and local landscape. On the asdk12.org website there are many resources for families to explore. I have been sending out many resources that we utilize within the classroom as well. It is very important that you know that these supports are optional and NOT graded. However, we know students do better, and act better when they have purpose. At this point, I'm trying to keep it as simple as possible without overwhelming parents and students. As always, if you have any questions please let me know! I can be reached through the Remind app or email. Sending lots of love, Mrs. Hare

Future generations will look back and marvel at how we were able to continue to do the things we do including the education of our most valuable resource, our students. Please remind your students to get some time on Lexia. We are currently working our way through the Iditaroad. Progress in Lexia will move you forward on the trail. More details to come through emails and Remind. If your child has my resource class, please join our Remind or you can email me. Miss you all!! Have a great week.

We miss you! Stay safe and healthy and we hope to see you soon.

A Word from P.E. - Mr. Beaulieu

Hi Boys & Girls, Don't forget to get some exercise. It's an important part of keeping your mind and body healthy.

Parents: Preschoolers & Kindergartners : These children need play and exercise that helps them continue to develop important motor skills — kicking or throwing a ball, playing tag or follow the leader, hopping on one foot, riding a trike or bike with training wheels, or running obstacle courses.

First-Fifth graders With school-age kids spending more time in front of screens, it can be challenging to help them find physical activities they enjoy and feel successful doing. These can range from practicing ball handling skills like throwing, dribbling, shooting hoops to yoga, biking, hiking, and playing outside (at a socially acceptable distance from others of course.

A Word from Mrs. Smith

Through all this, I hope you know we are proud of YOU and miss YOU. Everything is going to be okay 🙏! Love, Mrs. Smith
