

**Resolution #35**

## **Polaris Advisory Day!**

**Submitted by: Lexi Roehl**

**Date: 11. 18. 24**

**Be it resolved by Operational Group**, we would like to bring Advisory Day back on the last day before intensives (May 1st) or on the last day school to spend the day with your advisory

1. **Whereas**, the advisories have new people every year who do not have the chance to create bonds between everyone in their advisory;
2. **Whereas**, we have done Advisory Day's in the past and it was well loved;
3. **Whereas**, the advisories have new people every year who are closed off and reserved, not having that support of people they need or want;
4. **Whereas**, it would be beneficial for the kids having a nice free day with their friend's and build bonds with their family group/advisory;
5. **Whereas**, if the advisory chooses to go off campus, there will be a permission form for everyone in each advisory to give to their parents to go off campus;
6. **Whereas**, this event is a well loved tradition in Polaris and people ask to bring it back;
7. **Whereas**, it is a small seminar to build bond's which is what Polaris represents; and
8. **Whereas**, this event hasn't been in Polaris since 2017.<sup>1</sup>

**Therefore, be it resolved by Operational Group, if passed;** this resolution will grant the advisories at Polaris a day of fun to spend with their group after academics, either before intensives or on the last day of school.

**Action Statement:** If passed, this resolution will be talked over with Dr. Tia Clay for permission and approval to move forward to be granted a success.
