

Resolution #32

Encouraging New Colleges for TTT

Submitted by Kenneth Warren IV

Date 11/18/24

Be it resolved by Operational Group, That Polaris' administration will reach out to colleges that have not presented before to make a request for them to present

1. **Whereas,** Tuesdays Towards Tomorrow (TTT) was created to expose students to options for their future;
2. **Whereas,** in our current TTT we cycle between the same few schools;
3. **Whereas,** by not including new schools we abandon the goal of TTT;
4. **Whereas,** due to the monotonous nature of our TTTs kids lose even more interest;
5. **Whereas,** sometimes schools who present will send people to set up a booth in our lobby;
6. **Whereas,** this can allow students to form emotional connections with schools out of state that they otherwise wouldn't be able to;
7. **Whereas,** many of the universities in the state of Alaska rank very low in the nation;
8. **Whereas,** if more schools out of state were to present we would expose high achieving students to schools where they could be rewarded further for their academics;
9. **Whereas,** our TTTs are very infrequent;
10. **Whereas,** if we were to gather more schools to present there would be more of a reason to consistently host TTTs; and
11. **Whereas,** if need be, the author of the resolution would love to help reach out to colleges and universities and help them communicate with our school.

Therefore, be it resolved by Operational Group, That Polaris' administration will reach out to colleges that have not presented before to make a request for them to present

Action Statement: Susy and the author of the resolution will discuss what course of action to take next and work to reach out to more colleges and universities across the nation.
