

What Is Happening in The Third Grade?

Week of April 1, 2019

Chicken Hatching Time

I was able to pick up the fertilized chicken eggs this weekend and we got them placed in the incubator today. The eggs will be in the incubator for 21 days. Students will be keeping a journal and learning about chicken eggs, the incubation process, and how to care for the chicks. There is a display in the hallway that documents what day we are on and what is happening inside the eggs.

Early Release Day

We will have an early release day on April 26th. Students will need to be picked up at 12:00.

PEAKS Testing

PEAKS Testing for third graders will be on April 2nd & 3rd. Please ensure that your child comes to school well rested and on time. There will be no homework assigned on those days other than the weekly reading log requirements.

Homework

Because of PEAKS Testing I will not be assigning any homework until Thursday.

Saxon Math

Monday – Lesson 93: Estimating Multiplication and Division Answers.

Thursday – Lesson 94: Two – Step Word Problems.

Friday – Lesson 95: Two – Step Problems About a Fraction of a Group.

Scott Foresman Science

Monday – What Materials come From the Earth?

Tuesday – How Can We Protect Natural Resources?

Wednesday - Chapter 2 Assessment

Thursday – Chapter 3: What Are the sun and Planets like?

Friday – How does the Sun Affect the Earth?
