### Schedule Changes:

Schedule changes must be requested during the first ten school days the semester.

- The change is possible and reasonable from the existing schedule
- The change will not overload another class
- The change results in a reasonable program of study towards graduation
- The counselor and/or administrator has approved the change

When a student selects a semester or yearlong course, he/she is expected to complete the course.

Students must be able to prove an academic need to an appropriate committee in order to receive a change after the first ten days of the semester. Decisions concerning schedule changes will be made on careful considerations of their impact on the educational needs of the student with the final approval by the Curriculum Assistant Principal.
