

[Bridges in Mathematics](#) is a research-based program developed by the Math Learning Center. It is a rigorous mathematics program that is rooted in the Common Core State Standards. Bridges in Mathematics aligns philosophically with our program. It offers a student-centered approach with a focus on critical thinking and builds in self-reflection. It provides social and collaborative opportunities. For more information, please visit the [Math Learning Center](#).

Units of Study is a research-based program developed by the Columbia Teachers College Reading and Writing Project. It is a rigorous reading and writing program that is rooted in the Common Core Standards. It is the curriculum utilized in our K-5 elementary classes and our 6-8 language arts classes. Units of Study is child centered, open ended in nature and students spend the majority of the workshop time engaged in the process of reading and writing. You can read a more in-depth [introduction](#) or read more [information for families](#).
