

Name: \_\_\_\_\_

## Set 1: Three-Digit Numbers

Fill in the blanks to show the numbers in different ways.

1  $300 = \dots\dots\dots$  hundreds     $300 = \dots\dots\dots$  tens     $300 = \dots\dots\dots$  ones

2  $500 = \dots\dots\dots$  hundreds     $500 = \dots\dots\dots$  tens     $500 = \dots\dots\dots$  ones

## Set 2: Write Three-Digit Numbers

Use the chart below for problems 1–3.

| Hundreds | Tens | Ones |
|----------|------|------|
| 2        | 3    | 7    |

1 Write the number using only digits.  $\dots\dots\dots$

2 Write the number in expanded form.

$\dots\dots\dots + \dots\dots\dots + \dots\dots\dots$

3 Write the number using words.  $\dots\dots\dots$

Fill in the blanks to show the numbers in different ways for problems 4 and 5.

4 Write eight hundred four using only digits.  $\dots\dots\dots$

5 Write eight hundred four in expanded form.

$\dots\dots\dots + \dots\dots\dots + \dots\dots\dots$

## Set 3: Compare Three-Digit Numbers

Write  $>$ ,  $<$ , or  $=$  in the circle to compare each pair of numbers.

1  $451 \bigcirc 456$

2  $267 \bigcirc 238$

3  $538 \bigcirc 638$

4  $626 \bigcirc 713$

5  $484 \bigcirc 624$

6  $204 \bigcirc 184$

## Set 8: Subtract Two-Digit Numbers

Find the difference. Show your work on the number line for problems 1 and 2.

1  $54 - 38 = ?$

$54 - 38 = \dots\dots\dots$

2  $82 - 29 = ?$

$82 - 29 = \dots\dots\dots$

Find the difference for problems 3–6. Show your work.

3  $36 - 17 = ?$

4  $42 - 14 = ?$

$36 - 17 = \dots\dots\dots$

$42 - 14 = \dots\dots\dots$

5  $55 - 38 = ?$

6  $67 - 29 = ?$

$55 - 38 = \dots\dots\dots$

$67 - 29 = \dots\dots\dots$
