

**Polaris K-12 School
Resolution #19
Gaga Ball Installation
Submitted by Brady Burris, and Elijah Bell
October 31, 2023**

Be it resolved by Operational Group, that Polaris K-12 will gain a Gaga Ball pit.

1. **Whereas,** A gaga pit is a new competitive way for kids to express themselves on the playground;
2. **Whereas,** The playground has never had any additions since it was built;
3. **Whereas,** A gaga ball pit is a new way for kids to have a safe competitive game;
4. **Whereas,** A gaga ball pit will appeal to all ages including middle and high school students;
5. **Whereas,** The construction of a gaga ball pit will cost less than adding expensive school equipment;
6. **Whereas,** We have a great location for the gaga ball pit construction;
7. **Whereas,** Rilke Schule already has a gaga ball pit built proving we could build on our ground conditions;
8. **Whereas,** If we build the pit ourselves we can keep the cost to under 500\$;
9. **Whereas,** The operational group has voted for the construction of the gag ball pit;
10. **Whereas,** Secondary students are unable to use the play equipment and adding the gaga ball pit would give secondary students an alternative option to pass the time.

Therefore, be it resolved by Operational Group, If passed by the Polaris 2023 General assembly we present and will ask PTA to help fund this resolution.

Action Statement: If this resolution is passed by the Operational Group, it will be taken to PTA for review. If the PTA approves the idea, then we will find funding with fundraisers and find a company who is willing to build the Gaga Ball Pit.
