Academic Policy Committee
Treasurer Report
Thursday, February 15, 2024

Financial Overview

Rilke Schule has budgeted for an enrollment of 480 students in the 2024-25 school year. That is an enrollment growth of almost 3%. Despite the forecasted growth, our anticipated general fund budget from ASD is expected to be less than the current school year. This leaves Rilke Schule in the challenging position of providing our students, staff and community with the education and support they require while also considering the long-term fiscal stability of our school. Now is a great time for the Rilke Community to advocate for a permanent increase in the base student allocation.

The APC, Principal Strauch and Assistant Principal Vincent-Lang continue to brainstorm and research additional funding avenues that may be available. In January, an initial outreach meeting with the Rilke Community surrounding grants occurred with further training in the works with ASD. Additionally, members of the APC and RSV attended an event about school business partnerships and, in conjunction with Principal Strauch, are exploring ways to engage the community in this endeavor.

2023-24 Financial Performance (FY24)

The approved FY24 budget was built upon an estimated student enrollment of 468. Rilke is forecasted to spend more than the ASD adopted budget in FY24 due to increased staffing costs and student needs. By utilizing our remaining available grant funding, Rilke will be able to fund any additional costs over budget this fiscal year with minimal impact to our savings. Through January, Rilke has spent 50% of our ASD approved budget for this school year.

Rilke Schule's operational expenditures through January are over \$2.5 million when combining both the general and grant funding accounts. Personnel expenditures, which include both salaries and benefits, comprise 74% of total expenditures. The next most significant expense category for Rilke Schule is Purchased Services, which includes rent, utilities and intern coordinator related costs. Purchased Services currently comprises 22% of total expenditures, with Rent & utilities being the primary driver of those costs at \$515 thousand through January.

Rilke's student activity fund had a balance of \$70 thousand at the end of January, with full student activity fees yet to be collected. Principal Strauch and his team continue to explore how best to utilize these funds as a supplement to ASD's funding, where applicable.

FY24 (2023-24) Projections General & Grant Funding
