### 

## Introduction and Overview of CIP

### I. Introduction and Overview of CIP Document

The Anchorage School Board is responsible for providing an adequate educational environment for the students of Anchorage. To fulfill this obligation, the school board regularly engages in comprehensive long-range planning of school facility construction, renovation, and maintenance. On an annual basis, the school board adopts a Capital Improvement Plan that addresses the anticipated levels of student enrollment and shifts in enrollment, along with school facility condition and functionality from an educational perspective. Typically, this plan delineates the district's construction priorities over the succeeding six-year period.

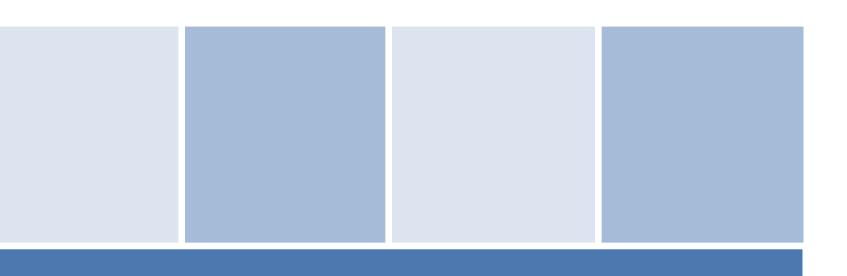

The steps in preparing the Six-Year CIP are listed below:

- 1. Survey all district principals to determine school space utilization.
- 2. Collect birth data from the State of Alaska Bureau of Vital Statistics and population data from the State demographer.
- 3. Project six-year membership by school and grade.
- 4. Receive administrative recommendations for alleviating negative conditions projected in facility usage based on the six-year forecast.
- 5. Obtain approved recommendations from the district's Capital Improvement Advisory Committee.
- 6. School board review and approval of the CIP.
- 7. Present board approved CIP to the Municipal Planning and Zoning Commission for comments.
- 8. Transmittal of CIP to Anchorage Assembly and to the State Department of Education and Early Development (EED).

This document is divided into four major sections:

- School Facilities
- Capital Improvement Recommendations for 2014-15 to 2019-20
- Student Membership Projections for 2014-15 to 2019-20
- Current Facilities Utilization

# **School Facilities**

### II. School Facilities

The Anchorage School District operates and maintains the largest physical plant of any public entity in the state, with approximately 7.5 million square feet of facilities. The replacement value of district buildings exceeds \$2 billion. The district has 93 facilities, comprised of eighty-seven schools and 6 support facilities. In addition, there are fourteen alternative and charter school programs. The district houses more than 48,000 students and nearly 5,000 staff members.

Forty-four elementary schools are organized K-6, while Chester Valley, Chugiak, Creekside Park, Fire Lake, Mountain View, Muldoon, Nunaka Valley, Ptarmigan, Russian Jack, Scenic Park, Susitna, Tyson, Williwaw, and Wonder Park elementary schools are organized K-5. Aurora, Mt. Spurr, Orion, Ursa Major and Ursa Minor elementary schools are located on Joint Base Elmendorf Richardson. Due to a decline in enrollment on Fort Richardson, Kennedy Elementary School was closed at the end of the 1999-2000 school year, and is being used by the district's Information Technology Department. Two elementary schools have a K-8 organizational pattern: Northern Lights ABC and Girdwood K-8 School.

Central, Goldenview, Gruening, Hanshew, Mears, Romig and Wendler middle schools are organized for grades 7–8. Begich, Clark, and Mirror Lake middle schools are organized for grades 6-8. Bartlett, Chugiak, Dimond, Eagle River, East, Service, South and West senior high schools are organized for grades 9–12.

Polaris K-12 School, an alternative elementary/secondary program, is organized for grades K–12. Crossroads and Steller Alternative secondary programs are organized 7–12. Two other alternative secondary programs are organized 9–12: AVAIL and Benny Benson. AVAIL is housed at the Fifth Avenue Mall; Benny Benson is housed at the ASD Benny Benson building, while Crossroads is housed at the Success by Six building in Mountain View. SEARCH, an alternative secondary program that is organized for grades 7-8, is also housed at the Benny Benson building. SAVE, another alternative secondary program, is organized 10-12 and is housed in its own facility.

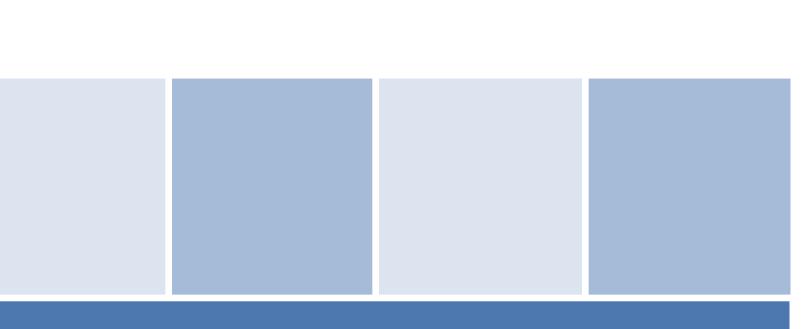

Currently, there are eight Charter School programs offered in the ASD: Alaska Native Cultural (K-6), Aquarian (K-6), Eagle Academy (K-8), Family Partnership

(K-12), Frontier (K-12), Highland Tech (6-12), Rilke Schule (K-8), and Winterberry (K-8). Of these programs, Aquarian operates in an ASD facility while the other seven are housed in leased space.

Special Education services are offered in all elementary and secondary schools in the district. Two school facilities, Mt. Iliamna on JBER Elmendorf and Whaley School, are dedicated to serving students with significant disabilities.

In addition, the district operates four state contract programs: Alaska State School for the Deaf and Hard of Hearing, Providence Heights, McLaughlin School and New Path High School. The district also operates special educational programs for students in five residential facilities: Jesse Lee Home, Booth Memorial, McKinley Heights, Charter North Hospital and North Star Hospital.

# **Capital Improvement Needs**

### III. <u>CAPITAL IMPROVEMENT NEEDS</u>

The Anchorage School District operates and maintains the largest physical plant of any public entity in the state. These facilities consist of approximately 7.7 million square feet in eighty-seven schools and six support sites. Not only is the District's inventory of facilities large, it is also aging. Fifty three schools are over 20 years old, and of these seventeen are over 50 years old.

To care for this substantial investment, the district has implemented an integrated facility management program (FMP).

A key component of this program is the capital planning and assessment management system (CPMS). The CPMS database centralizes information on facility components and system conditions and a facility's ability to meet current educational program requirements. This information is collected during facility and educational assessments, by utilizing systematic, consistent, and repeatable methodologies to obtain the initial information and for ongoing efforts to maintain the long term usefulness of the information. The collected information serves as a basis to determine capital needs, priorities, educational inadequacies, facility capital costs and in developing short and long term facility planning and funding strategies.

Educational program requirements are defined by districtwide educational specifications for elementary, middle and high school levels. Educational adequacy assessments determine the ability of a school to meet educational program requirements by evaluating the quantity, configuration, size, and existence of spaces defined by educational specifications. For example, a school may not have enough classrooms to offer health classes, or a gymnasium in addition to a multi-purpose room in order to allow for concurrent lunches and physical activity.

Currently, facility condition assessments are complete for 93 facilities and educational program assessments are complete for 87 schools. Assessment data is updated on an annual basis as school upgrades are completed.

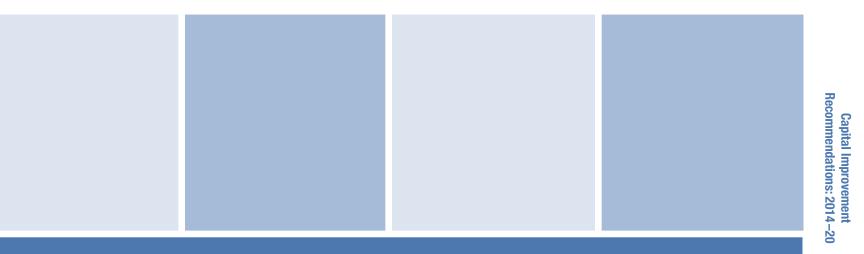

Information collected from facility condition and educational program assessments highlight the following key factors of the District's building inventory.

**Building components wear out.** Facility systems only last so long. Roofs deteriorate and leak; heating, plumbing, and ventilation systems wear out; and structural systems age. Various code changes require updating electrical and mechanical systems, access for persons with physical disabilities; removing hazardous materials, and renewing various building system components. Moreover, significant renewals often require structural upgrades to meet more stringent seismic codes.

**Functional obsolescence** is another fact of life for older schools. Over the life of a school, programmatic changes take place that demand updating the facility infrastructure. There is a continual need to update the electrical distribution systems in the schools to accommodate current technology. Current educational delivery methods require physical layouts that are often different and more flexible than those of 30 to 40 years ago. Without renewal, these schools do not provide ASD students the same educational opportunities through parity of program and facilities across the school system.

Additional capacity to house the constantly shifting student population is the third component of capital requirements. Anchorage is the largest district in the state, and while its overall enrollment has been steady in recent years, the geographic distribution of students continues to shift due to the high mobility of the Anchorage population. The district has over 130 relocatable classrooms available to meet short-term capacity needs in affected schools.

# Capital Improvement Recommendations: 2014–20

### IV. CAPITAL IMPROVEMENT RECOMMENDATIONS: 2014-15 to 2019-20

Table 1 summarizes the recommended six-year capital improvement projects and their estimated cost. Table 2 provides brief descriptions for the projects shown in Table 1. Table 3 shows the agency interface required for undeveloped sites currently managed by the District. Initial project cost estimates are based on Fiscal Year 2013 costs with inflation adjustments for years two through six of the plan. Adjustment to these cost estimates will be made in future years due to fluctuations in construction costs and scope of work identified in the initial planning or design stages of the projects. In addition to the projects included in this CIP, the district also allocates general funds every year for Maintenance and maintenance projects, which is approximately \$21,110,000 for FY 2013-2014.

In 2009 the District initiated the development of an asset management system (CPMS) to assist in capital planning. The key component of which is an integrated facility management assessment program (FMAP). Information is collected during facility condition assessments utilizing a systematic and consistent methodology. Educational adequacy assessments determine the ability of a school to meet educational program requirements by evaluating the quantity, configuration, size, and existence of spaces defined by educational specifications. The collected information serves as a basis for determining priorities and costs of facilities' capital needs, and is used for both short term and long term planning purposes.

To date the District with assistance by consultants has completed facility condition assessments on 93 locations and educational adequacy assessment at 86 schools.

Table 4 is a summarization that provides information which describes the current status of those assessed facilities. The 6-Year CIP recommendation, Table 1, was developed by utilizing the Facility Condition Index (FCI), Educational Adequacy Index (EAI) and school's program capacity percentage found in this appendix.

Table 5 is the District's anticipated construction delivery schedule of large-scale projects that have been funded through Legislative appropriations, specifically, Stadium amenities and bleachers at high schools.

Project Title	Scope of Work Notes	Project Cost	CIP Year
Capital Improvement Projects		110jeer cost	011 1001
Airport Heights Elementary School Addition /	Design and Construction funding to address both infrastructure upgrades and	\$ 22,800,000	1
Renovation Design & Construction	modification of building to meet existing educational program deficiencies.		
Bayshore Elementary School Component Renewal	Design and Construction funding to replace roof sections last upgraded in the 1990's. Remove, replace, and upgrade aging systems such as flooring, mechanical and electrical systems. Renew site lighting, exterior lights attached to building, pedestrian paving, and parking lots. This project would renew existing aging systems and provide improvement for operation and maintenance costs by reducing maintenance repair.	\$ 5,035,000	1
Eagle River Elementary School Component Renewal 2	Design and Construction funding to upgrade heating and ventilation systems through out school. Upgrade building to full direct digital controls. Upgrade electrical distribution systems for entire building. Upgrade main electrical distribution panels and increase data and power capabilities in classrooms. Replace existing roofing systems located over main classroom wing.	\$ 5,320,000	1
Gladys Wood Elementary School Addition /Renovation Design	Design funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 1,000,000	1
Gruening Middle School Addition/Renovation Design	Design funding to determine the require modifications to address both infrastructure upgrades and missing educational program deficiencies in meeting the current 6 team middle school program delivery model.	\$ 2,475,000	1
Huffman Elementary School Upgrade Component Renewal	Design and Construction funding to remove, replace, and upgrade aging systems such as flooring, mechanical and electrical systems. Replace exterior doors and windows for the entire building. This project would renew existing aging systems and provide improvement for operation and maintenance costs by increasing energy efficiency and reducing maintenance repair.	\$ 5,265,000	1
O'Malley Elementary School Major Renovation Design	Design funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 1,000,000	1
Susitna Elementary School Upgrade Component Renewal	Design and Construction funding to remove, replace and upgrade aging systems such as flooring, ceilings, paint, interior walls and casework, mechanical and electrical systems. Replace exterior doors and windows for the entire building. Minor upgrades to the existing classrooms to improve educational adequacy. This project would renew existing aging systems and provide improvement for operation and maintenance costs by increasing energy efficiency and reducing maintenance repair.	\$ 4,290,000	1
Turnagain Elementary School Major Renovation Design	Design funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 1,475,000	1
West High (60%) and Romig Middle (40%) School Design	Modification of existing site layout for student bus and additional event parking as addressed in the West/Romig Implementation Plan. This project can be interchanged with other components for West/Romig.	\$ 2,700,000	1
Gladys Wood Elementary School Addition /Renovation Construction	Construction funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 9,825,000	2
Inlet View Elementary School Construction	Construction funding to address infrastructure component renewal.	\$ 3,820,000	2
Mount Iliamna (50%)/Whaley School (50%) Replacement Design	Design funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 3,280,000	2
Mountain View Elementary School Major Renovation Construction	Construction funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 10,920,000	2
Rabbit Creek Elementary School Major Renovation Construction	Construction funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 9,830,000	2
Turnagain Elementary School Major Renovation Construction	Construction funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 9,825,000	2
Central Middle School Addition/Renovation Construction	Construction funding to address required modifications to infrastructure upgrades, modification and addition to building to meeting missing educational program deficiencies for a 6 team middle school program delivery model.	\$ 45,645,000	3
Chinook Elementary School Upgrade Component Renewal	Design and Construction funding to replace roof sections last upgraded in the 1990's. Remove, replace, and upgrade aging systems such as flooring, mechanical and electrical systems. Replace exterior doors for the entire building. Minor upgrades to the existing classrooms to improve educational adequacy. This project would renew existing aging systems and provide improvement for operation and maintenance costs by increasing energy efficiency and reducing maintenance repair.	\$ 4,155,000	3
Chugiak Elementary School Upgrade Component Renewal	Design and construction funding to upgrade various mechanical and electrical systems. Replace exterior doors and windows for the entire building. Minor upgrades to the existing classrooms to improve educational adequacy. This project would renew existing aging systems and provide improvement for operation and maintenance costs by increasing energy efficiency and reducing maintenance repair.	\$ 3,710,000	3
Steller Secondary School Addition/Renovation Design	Planning and Design funding to determine the require modifications to address both infrastructure upgrades and missing educational program deficiencies in meeting the current alternative program delivery model.	\$ 1,715,000	3
Gruening Middle School Addition/Renovation Construction	Construction funding to determine the require modifications to address both infrastructure upgrades and missing educational program deficiencies in meeting the current 6 team middle school program delivery model.	\$ 35,775,000	4
Romig Middle School Renovation	Improvements to Romig Middle school identified in West/Romig Implementation Plan. This project can be interchanged with other components for West/Romig.	\$ 16,060,000	4

# TABLE 22014-2020 CIP Project List

Project Title	Scope of Work Notes	Project Cost	CIP Year
Willow Crest Elementary School Upgrade Component Renewal	Design and Construction funding to replace 42,000 sf single ply EPDM with lightguard roofing and 15,000 sf fully adhered roof areas. Remove, replace, and upgrade aging systems such as flooring, mechanical and electrical systems. Replace exterior doors and windows for the entire building. Minor upgrades to the existing classrooms to improve educational adequacy. This project would renew existing aging systems and provide improvement for operation and maintenance costs by increasing energy efficiency and reducing maintenance repair.	\$ 2,805,000	4
Northwood ABC School Upgrade Component Renewal	Design and Construction funding to replace 36,000 sf single ply EPDM with lightguard roofing. Remove, replace, and upgrade aging systems such as flooring, mechanical and electrical systems. Replace exterior doors, windows and skylights for the entire building. Minor upgrades to the existing classrooms to improve educational adequacy. This project would renew existing aging systems and provide improvement for operation and maintenance costs by increasing energy efficiency and reducing maintenance repair.	\$ 5,265,000	5
O'Malley Elementary School Major Renovation Construction	Construction funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 11,215,000	5
West High School Construction 1	Building system, classroom improvements and potential additions to West High School identified in West/Romig Implementation Plan. This project can be interchanged with other components for West/Romig.	\$ 24,300,000	5
Wonder Park Elementary School Upgrade Component Renewal	Design and Construction funding to remove, replace, and upgrade various aging systems such as emergency lighting, distribution equipment, and mechanical systems. Replace exterior doors and windows for the entire building. Replace existing roof and roof hatches. Minor upgrades to the existing classrooms to improve educational adequacy. This project would renew existing aging systems and provide improvement for operation and maintenance costs by increasing energy efficiency and reducing maintenance repair.	\$ 4,985,000	5
Bartlett High School West Academic Wing Renovation Design	Design funding to complete renovations of the West academic wing to address both infrastructure and program deficiencies in this section of the building.	\$ 2,605,000	6
East High School Benson Building Renovation Design	Design funding to complete renovations of the West academic wing to address both infrastructure and program deficiencies in this section of the building.	\$ 2,605,000	6
Mount Iliamna (50%)/Whaley School (50%) Replacement Construction	Construction funding to address both infrastructure upgrades and modification of building to meet existing educational program deficiencies.	\$ 35,160,000	6
Orion Elementary School Upgrade Component Renewal	Design and Construction funding to remove, replace and upgrade aging systems such as conductive flooring, interior and building exterior lighting, other electrical and mechanical systems. Replace exterior wooden windows for the entire building. Replace 41,000 sf EPDM roofing and 16,000sf built-up roofing areas. This project would renew existing aging systems and provide improvement for operation and maintenance costs by reducing maintenance repair.	\$ 5,420,000	6
Building Life Extension Projects			
Underground Storage Tank Removal and Replacement	Removal of existing underground storage tanks at 6 locations. Replace tanks with same size above ground tanks at the following locations: Alpenglow, G, Hanshew, Mirror Lake, Northwood and Student Nutrition	\$ 240,000	1
Turnagain Elementary School Standby Generator	Replace failed standby generator unit damage by flooding. Replacement include new generator and associated wiring and panel upgrades	\$ 60,000	1
Bartlett High School Gym Entry Door	Remove and replace existing gym entry doors at Bartlett High School. Upgrades to include new hollow metal doors, mechanical unit heater replacement and upgrade to existing sidewalk and landing for better drainage and ada compliance.	\$ 225,000	1
West High School Roof Upgrades	Remove and Replace approximately 13,000 sf of existing roof sections located above the existing math wing and ROTC Classroom Pods.	\$ 550,000	1
Wonder Park Elementary School Traffic Safety Improvements	Provide pedestrian and traffic safety improvements to include new parent drop off loop, new storm water drainage and existing sidewalk and asphalt parking area upgrades. Construction Documents will be complete this September 2013	\$ 2,600,000	1
William Tyson Roof Upgrades	Remove and replace both asphalt shingles and EPDM membrane for entire school. Upgrade drains in the gutter system.	\$ 550,000	1
Chugiak High School HVAC Upgrades	Replace existing fans, classroom unit heaters, and direct digital control for the remaining non renovated portion of Chugiak High School	\$ 1,200,000	1
District Wide Communication Closet Cooling	Provide upgrades to existing data communication closets at multiple locations to reduce cool these location to prevent overheating to existing equipment	\$ 500,000	1
District Wide BLE 2	District Wide Emergent projects	\$ 2,405,000	2
District Wide BLE 3	District Wide Emergent projects	\$ 2,730,000	3
District Wide BLE 4	District Wide Emergent projects	\$ 2,855,000	4

# Membership Projections Summary: 2014–15 to 2019–20

### V. Membership Projections Summary: 2014-15 to 2019-20

**Forecasting Methodology and Assumptions:** The principal methodology used to project the 2014-15 through 2019-20 enrollment is known as the cohort-survival technique. The basic technique involves calculating the ratio of the number of students in one grade during one year compared to the number of students who "survive" the year and enroll in the next grade in the following year. This survival rate calculation treats the student body in an aggregate fashion, using historical membership data. It is affected by such factors as school promotion, net migration and withdrawal rates. All of these factors are included in the term "survival" as it is used in this context.

Projections for individual schools are derived using the benchmark numbers realized through the cohort-survival and kindergarten projection methods. The allocation of students to each school is done by examining historical trends in individual school membership, as well as historical and projected housing and economic trends for that area.

ASD projections contained in this document do not reflect the impact of any major events occurring in the next six years: construction of the natural gas pipeline, opening of ANWR for oil exploration, closure or expansion of military installations; major changes in the state's economic or political structure. It is assumed, however, that oil and mineral exploration will continue in Alaska throughout the decade. It is also assumed that industry other in Anchorage will continue to develop and their employment levels will affect the ASD membership.

### Projections Summary: 2014 - 2020

# **Current Facilities Utilization**

#### VI. <u>Current Facilities Utilization</u>

**Program Capacity**: The district has made the decision to report its individual school capacities on a program, rather than EED, basis. EED calculations are based primarily on the square footage of the facility and the grade level of students attending the school (elementary or secondary). Based on these calculations, the prototypical 26-classroom school, such as Kincaid, Russian Jack or Lake Hood, has a capacity of 536 students. The EED capacities are often quite different from the program capacities computed on a school-by-school basis, with the number of classrooms and their utilization being the determining factors. For example, the Program Capacity for Kincaid is 449, Russian Jack is 424, and Lake Hood is 477. This difference in capacities for schools that are basically identical in structure is due to the nature of the programs functioning at each of these schools, or the utilization.

**Facilities Utilization**: Administrators are aware that some programs, or special services, require space beyond the normal capacity of a classroom. Therefore, in this report, information is provided to assist the schools and administration in evaluating the actual number of students that can be housed, based on classroom utilization. Part of this information is summarized in Tables 13-15, which lists information on each school related to number of classrooms, square footage, and relocatable units in use.

**Schools Projected at Greater Than 120 Percent of Capacity**: Table 16 lists the projected enrollment of all schools, for the next six years, as a percentage of capacity. Those schools at which the projected enrollment is greater than 120 percent for at least one of the six years projected are highlighted in bold print.

### Percentage Capacity - 2014-15 to 2019-20

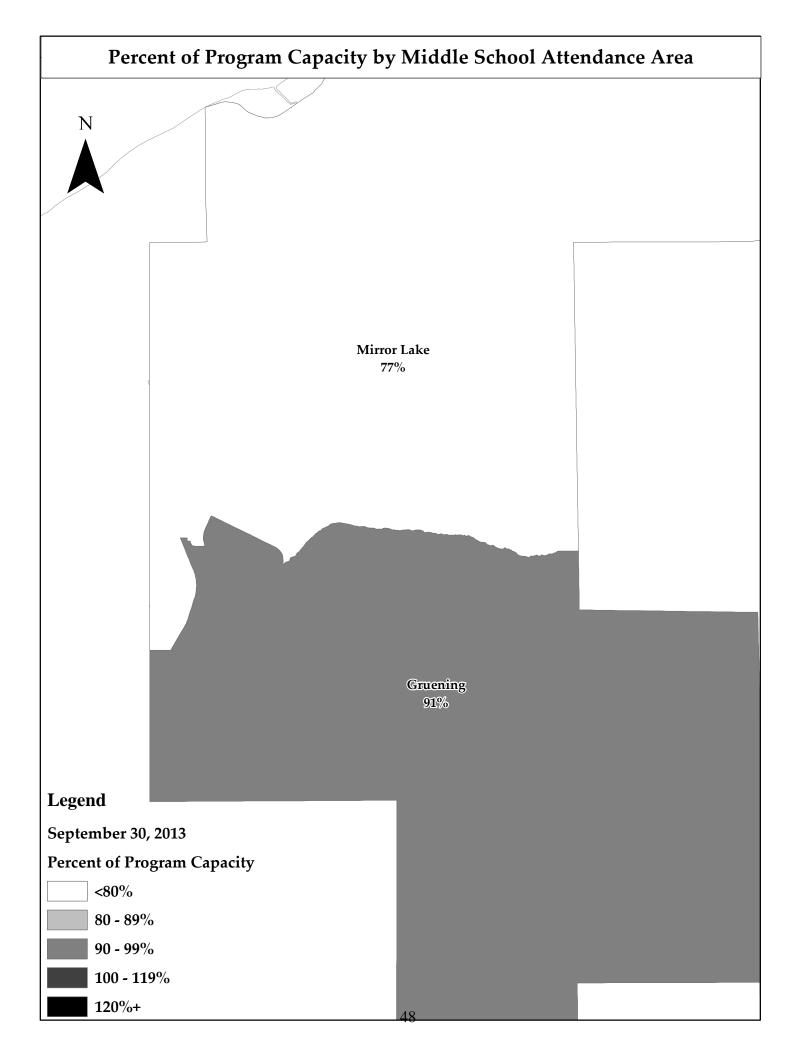

Note: 1) Percentages calculated using membership that included intensive special ed students, but not preschool students.

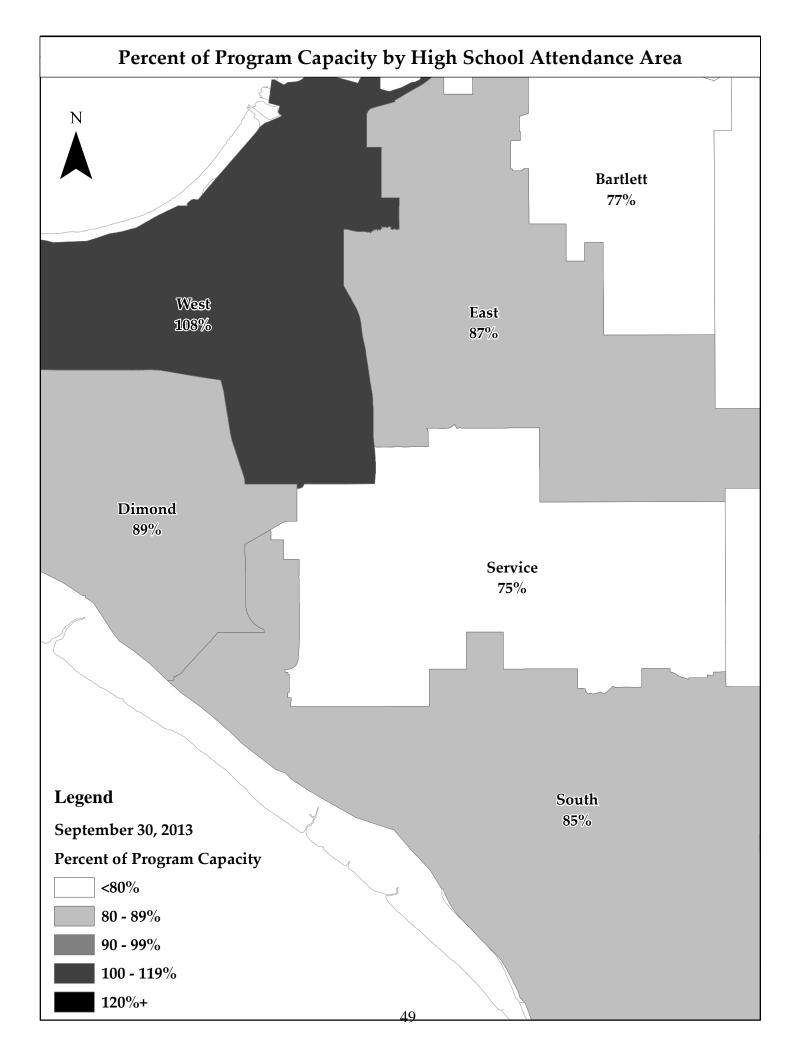

2) Charter schools are not included.

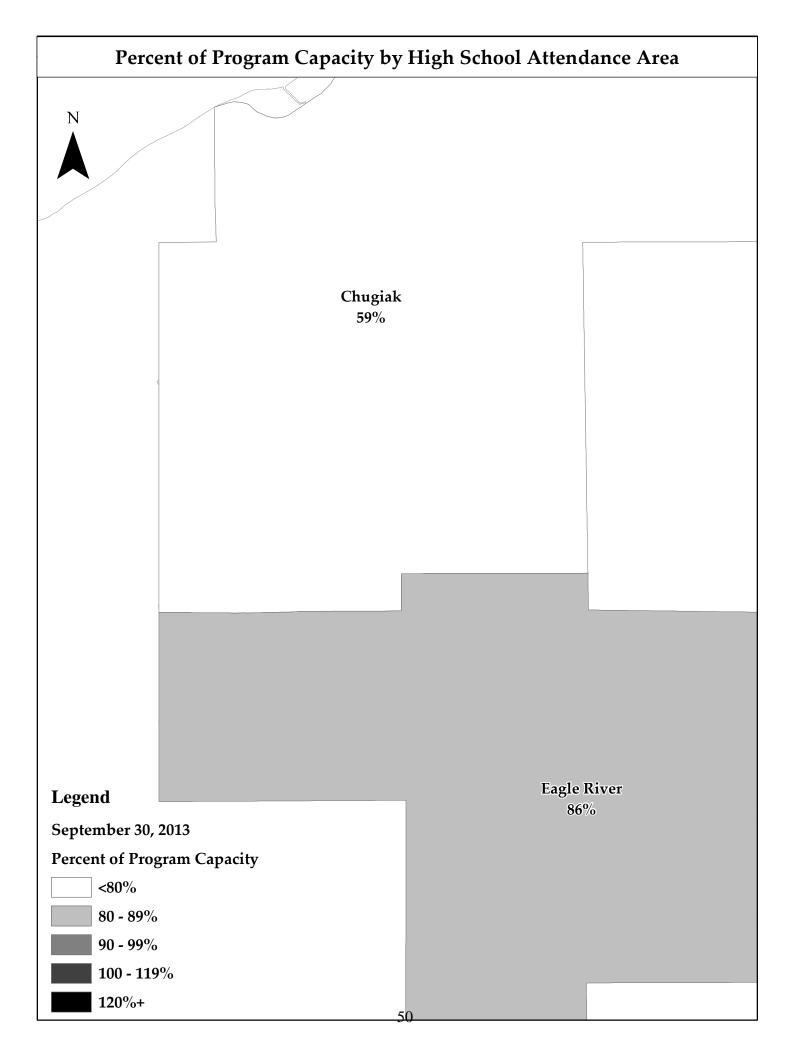

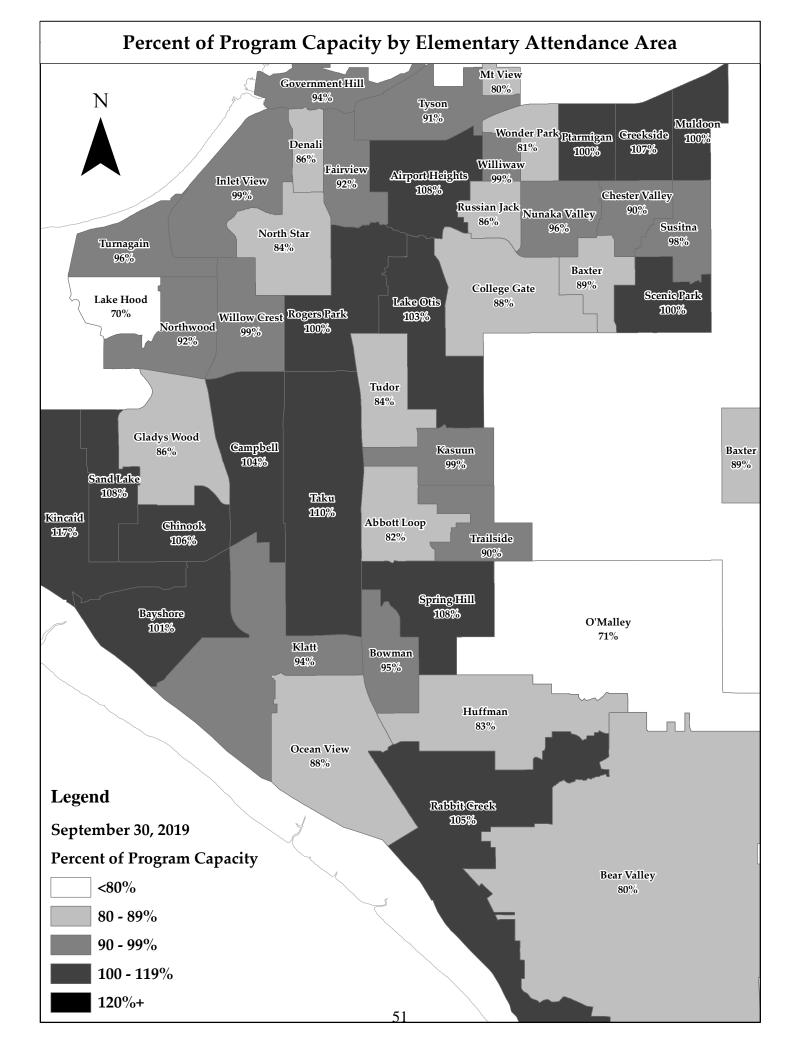

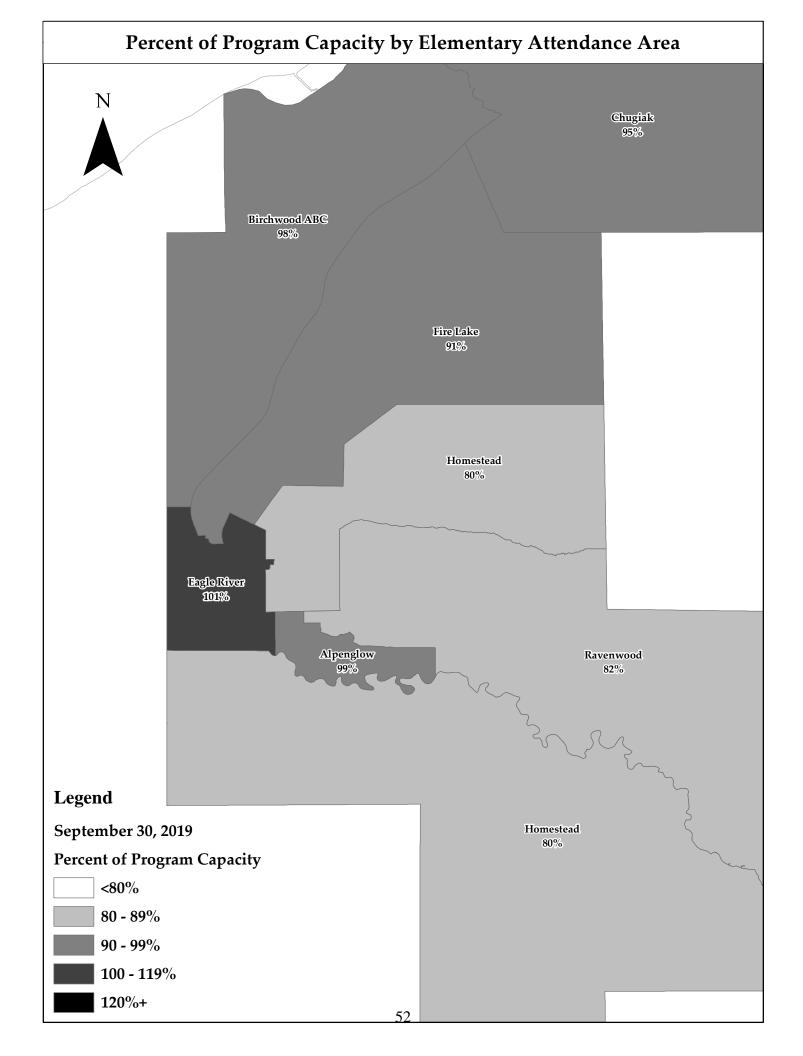

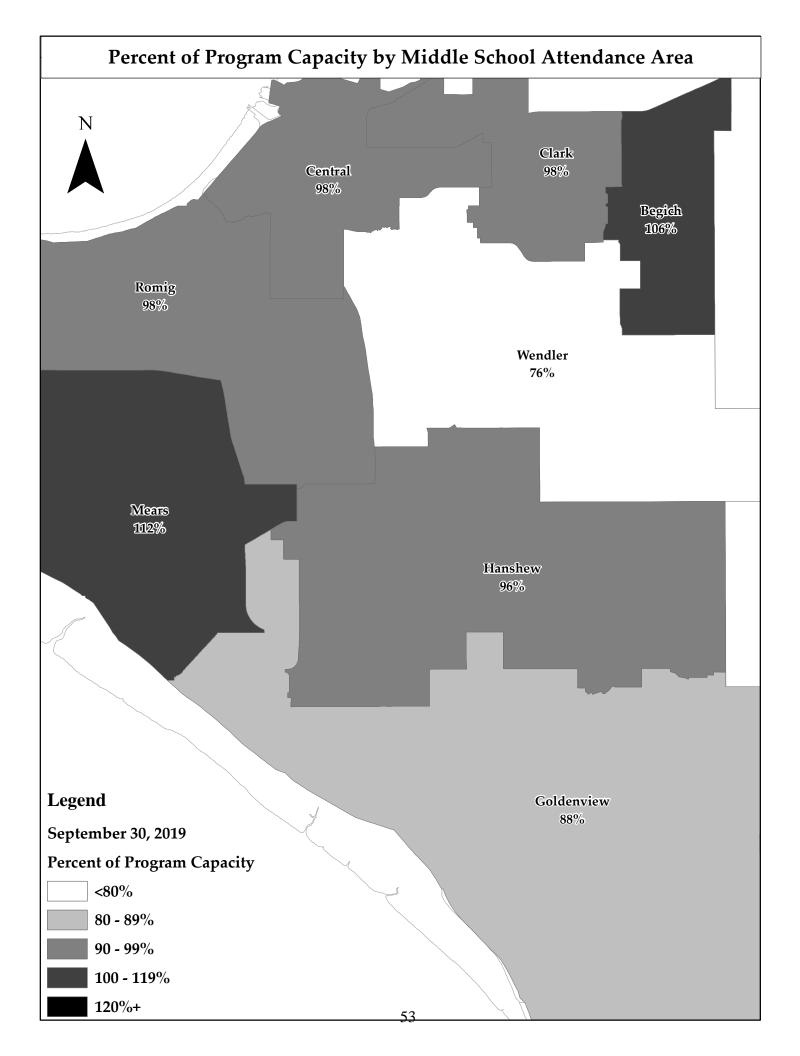

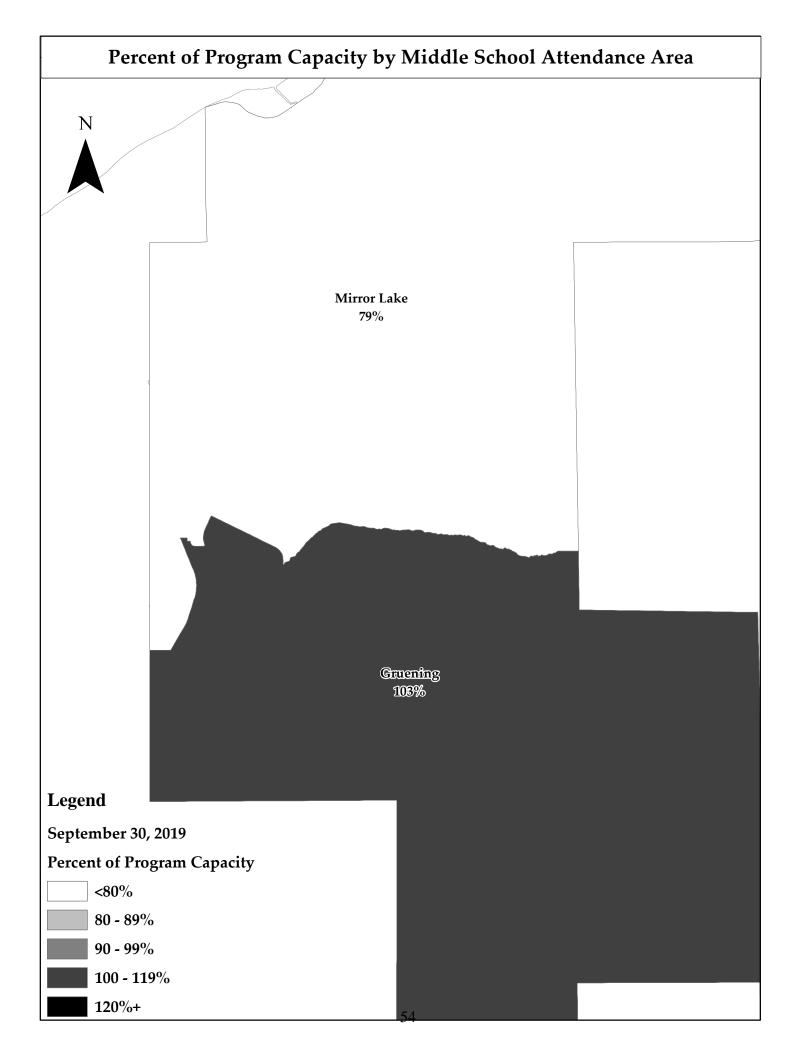

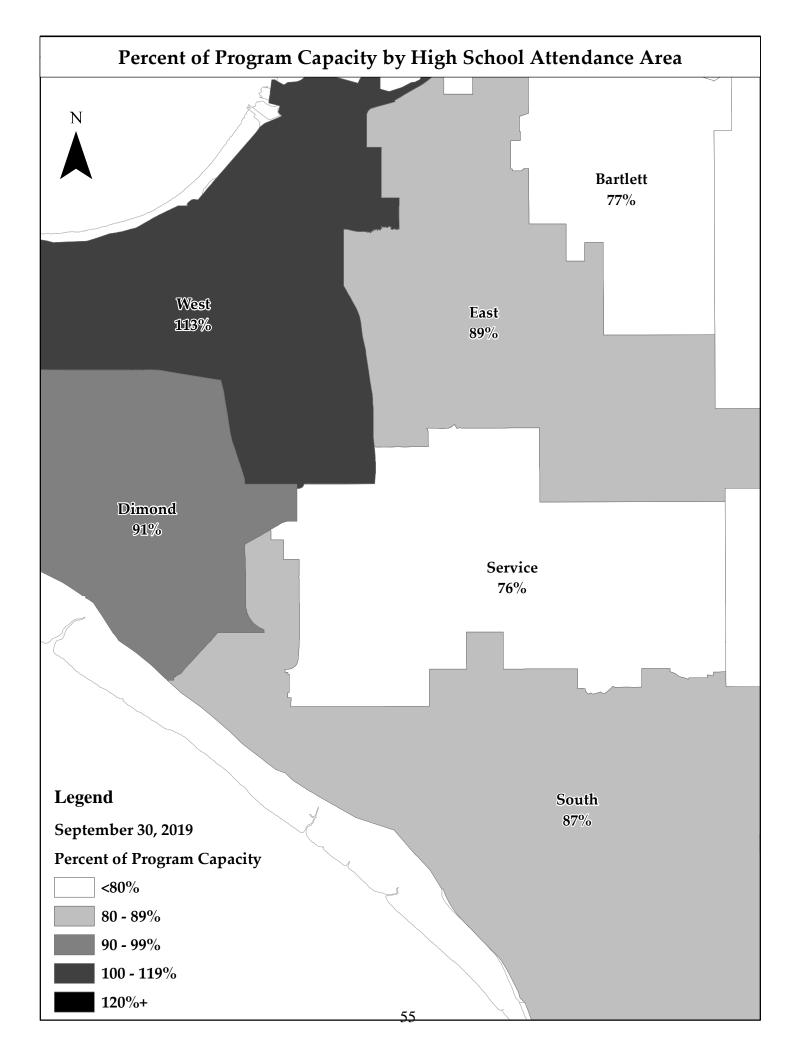

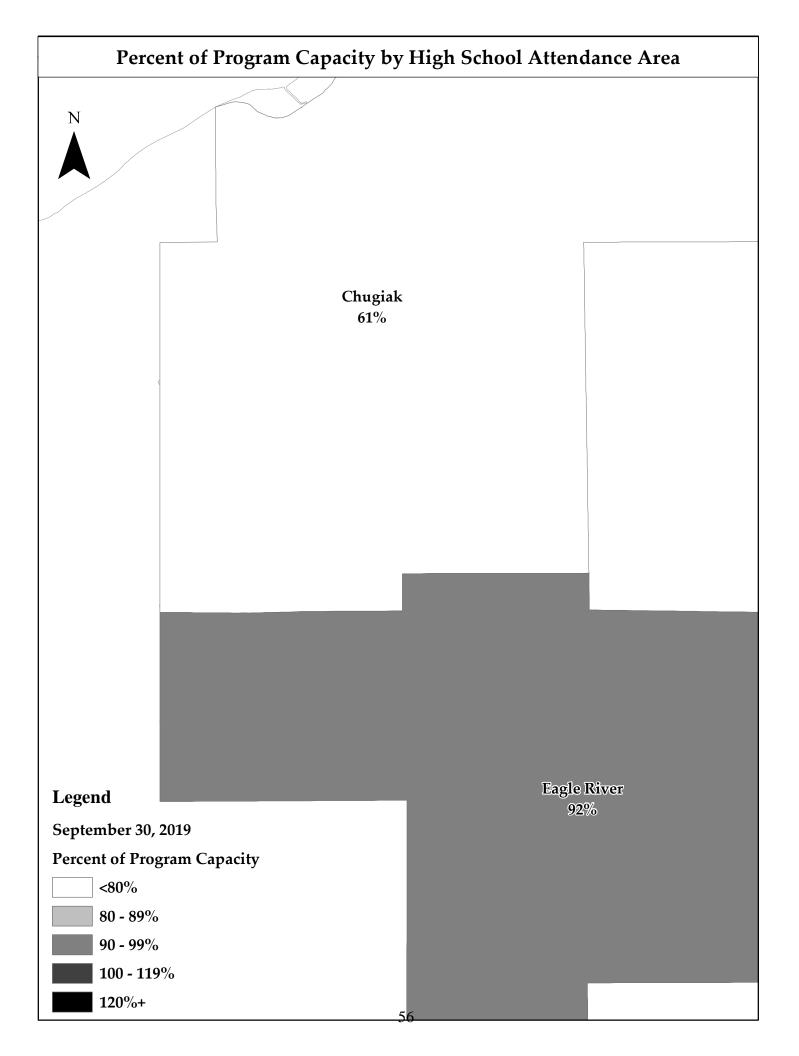

## **APPENDIX A**

Appendix A provides a list of schools, including charter schools, that have opened, closed or have been replaced as of 1996. It also contains basic information which describes the current status of each school facility, including: the year of original construction with gross square footage, year and description of any additions with gross square footage, as well as demolition and replacement facilities.

	School Name	Year Built or Opened	Year Replaced or Renewed	Year Closed
Opened Since 1996	Alaska Native Culture Charter	2008		
	Aquarian Charter	1997		
	Begich Middle	2007		
	Eagle Academy Charter	2005		
	Eagle River High	2005		
	Family Partnership Charter	1997		
	Frontier Charter	2003		
	Goldenview Middle	1997		
	Highland Tech Charter	2003		
	Kasuun Elementary	1996		
	Kincaid Elementary	1996		
	Lake Hood Elementary	1996		
	Mirror Lake Middle	1997		
	Rilke Schule Charter	2007		
	South High	2004		
	Trailside Elementary	2000		
	Tyson Elementary	1996		
	Winterberry Charter	2005		
Opened and Closed Since 1996	Village Charter Walden Pond Charter	1998 1997		2004 2000
Opened Prior to 1996 and Closed Since 1996	Kennedy Elementary	1962		2000
Replacements Since 1996	Clark Middle	1959	2009	
	Denali Montessori	1950	2004	
	Dimond High	1965	2004	
	Fairview Elementary	1958	1998	
	Muldoon Elementary	1966	2000	
	Russian Jack Elementary	1975	1999	
	Sand Lake	1958	2010	
Total Renewals Since 1996	Aurora Elementary	1954	1996	
	Baxter Elementary	1973	1999	
	Chester Valley	1964	2010	
	Chugach Optional Elementary	1973	2010	
	Creekside Park Elementary	1959	1999	
	Government Hill Elementary	1965	2000
